

CONTENTS

Chapter 1. The Biological Significance of Terpenes in Plants

I.	Introduction	1
II.	Monoterpenes	2
III.	Sesquiterpenes	2
IV.	Diterpenes	4
V.	Triterpenes	9
VI.	Tetraterpenes (Carotenoids)	12
VII.	Polyterpenoids	16
VIII.	Mixed Terpenoids	17
IX.	Conclusion	21
	References	21

Chapter 2. Conformational Analysis of Terpenes and Steroids

I.	Introduction	25
II.	Conformations of Cyclohexane Ring Systems	26
III.	Conformational Analysis of Terpenoids and Steroids	30
IV.	The Conformation of Ring A in Triterpenes and Related Compounds	42
	References	44

Chapter 3. Specifically Labelled Substrates for Terpenoid Biosynthesis

I.	Introduction	47
II.	Synthesis of Mevalonate Labelled at C-5	49
III.	Synthesis of Mevalonate Labelled at C-4	51
IV.	Synthesis of Mevalonate Labelled at C-2	53
V.	Applications	55
	References	57

Chapter 4. Biosynthesis and Metabolism of Monoterpenes

I.	Introduction	59
II.	Biosynthesis of Monoterpenes	62
III.	Metabolism of Monoterpenes	70
IV.	Irregular Monoterpenes	79
V.	Conclusion	80
	References	80

Chapter 5. A Comparison of in vivo and in vitro Skeletal Transformations of Diterpenes	
I. Biosynthetic Pathways	83
II. Reactions of Diterpenes	89
III. Concluding Remarks	106
References	107
Chapter 6. Biosynthesis of Cardenolides, Bufadienolides and Steroid Sapogenins	
I. Introduction	111
II. Biosynthesis of Cardenolides	113
III. Biosynthesis of Bufadienolides	114
IV. Biosynthesis of Other C ₂₁ Steroids	114
V. Biosynthesis of Estrogenous and Androgenous Steroids in the Plant Kingdom	115
VI. Biosynthesis of Spirostanols	116
References	117
Chapter 7. Structural Studies in the Carotenoid Field	
I. Introduction	119
II. Light absorption Spectroscopy	120
III. Nuclear Magnetic Resonance Spectroscopy	121
IV. Chemical Methods	122
V. Mass Spectrometry	125
References	127
Chapter 8. The Chemistry of Isoprenoid Quinones	
I. Introduction	129
II. Minor Terpenoid Quinones	130
III. Tocopherol Quinones	132
IV. Ubiquinones	133
V. Plastoquinones	136
VI. Vitamins K and Related Compounds	138
VII. Chromanols and Chromenols	142
References	144
Chapter 9. Sesquiterpenes and their Biogenesis in <i>Myoporium deserti</i> A. Cunn	
I. The Nature and Function of Sesquiterpenes	147
II. The Volatile Terpenoids of <i>M. deserti</i> A. Cunn	148
III. The Biogenesis of Furans	153
IV. Biosynthetic Pathways in <i>M. deserti</i>	154
References	157

Chapter 10. Aspects of Phytosterol Biosynthesis

I.	Introduction	159
II.	Structure and Occurrence of Phytosterols	159
III.	Overall Biosynthesis of Phytosterols	166
IV.	Biosynthesis of the Phytosterol Side chain	167
V.	Possible Steps in the Conversion of Squalene to Phytosterols	174
VI.	The Significance of Sterol Esters in Plants	185
	References	186

Chapter 11. Biosynthesis of Terpenoid Quinones

I.	Introduction	191
II.	Synthesis in Relationship to Intracellular Organelle Development	194
III.	Biosynthesis	197
	References	219

Chapter 12. Polyisoprenoid Alcohols (Prenols)

I.	Introduction	223
II.	Long Chain, cis, trans Allylic Prenols	224
III.	Dolichols	236
IV.	Function of Long Chain, cis, trans Allylic Prenols	238
	References	238
