

## CONTENTS

<b>8</b>	<b>Isoprenoids</b>	<b>691</b>
8.1	Terpenoids	691
8.2	Steroids	808
<b>9</b>	<b>The Influence of Extractives on Wood Properties and Utilization</b>	<b>843</b>
9.1	Contribution of Extractives to Wood Characteristics	843
9.2	Role of Wood Exudates and Extractives in Protecting Wood from Decay	861
9.3	Effect of Extractives on Pulping	880
9.4	Effect of Extractives on the Utilization of Wood	920
9.5	Health Hazards Associated with Extractives	931
<b>10</b>	<b>The Utilization of Wood Extractives</b>	<b>953</b>
10.1	Naval Stores	953
10.2	Gums	978
10.3	Significance of the Condensed Tannins	988
10.4	Rubber, Gutta, and Chicle	1028
10.5	Other Extractives and Chemical Intermediates	1051
10.6	Pharmacological Active Metabolites	1059
<b>11</b>	<b>The Future of Wood Extractives</b>	<b>1165</b>
11.1	Introduction	1165
11.2	Requirements for Future Wood Extractives Ventures	1166
11.3	Prospects for Existing Extractives-Based Industries	1170
11.4	Failed Wood Extractives Ventures	1176
11.5	Future Directions for Industrially Oriented Extractives Research	1178
11.6	Areas of Needed Basic Research	1184
11.7	Conclusions	1192
	Index of Plant Genera and Species	1197
	Organic Compounds Index	1220
