LIST OF CONTRIBUTORS v
PREFACE vii
CONTENTS OF VOLUME I xi
CONTENTS OF VOLUME II xii
CONTENTS OF VOLUME IV xiii
ERRATA xiv

Chapter 12

Fractionation of Proteins

HERBERT A. SOBER, ROBERT W. HARTLEY, JR., WILLIAM R. CARROLL,
AND ELBERT A. PETERSON

I. Introduction 2
II. Solubility 7
III. Liquid-Liquid Partition 12
IV. Column Chromatography 13
V. Dialysis and Ultrafiltration 27
VI. Electrophoresis 31
VII. Sedimentation 56
VIII. Immunological Methods 65
IX. Auxiliary Techniques 77
X. General Recommendations 86
References 91

Chapter 13

Structure and Function of Virus Proteins and of Viral Nucleic Acid

H. FRAENKEL-CONRAT

I. Introduction 99
II. The Proteins of Viruses of Helical Symmetry 101
III. The Proteins of Viruses of Cubic Symmetry 120
IV. The Proteins of Viruses of Complex Structure 123
V. Structure and Function of Viral Nucleic Acids 128
VI. Effects of Viral Mutation in Terms of Protein Structure 141
VII. Conclusions 145
References 146

Chapter 14

Structure and Function of the Plasma Proteins

FRANK W. PUTNAM

I. Introduction 154
II. Characterization of the Plasma Protein System 159

III. Molecular Properties and Chemical Composition of the Plasma Proteins	172
IV. Structure and Function of Major Plasma Proteins	187
V. Conclusion	252
References	253

Chapter 15

Structure and Function of Antigen and Antibody Proteins

S. J. SINGER

I. Introduction	270
II. The Chemical Properties of Antigens and Antibodies	271
III. The Antigen-Antibody Reaction	285
IV. The Structure of Protein Antigens	321
V. The Structure of Antibodies	327
VI. Theories of Antibody Formation	347
VII. Concluding Remarks	350
References	350

Chapter 16

The Proteins of Blood Coagulation

EARL W. DAVIE AND OSCAR D. RATNOFF

I. General Introduction	360
II. Fibrin Formation in Mammalian Blood	360
III. Properties of the Various Clotting Factors	365
IV. Mechanisms of Blood Coagulation	381
V. Protein and Polysaccharide Inhibitors of Blood Coagulation	401
VI. Plasmin and Plasminogen	405
References	425

Chapter 17

Interaction of Proteins with Radiation

G. WEBER AND F. W. J. TEALE

I. Introduction	445
II. Infrared Absorption Spectra of Proteins	446
III. Ultraviolet Absorption Spectroscopy of Proteins	455
IV. Emission Spectroscopy	466
V. Scattering and Retardation of Radiation by Proteins	486
References	514
