

## CONTENTS

**CHAPTER 1. The Scope of Vegetable Tannin Chemistry**

I. Introduction	1
II. The Structure of Collagen	2
III. The Mechanism of Vegetable Tannage	7
IV. The Scope of Vegetable Tannin Chemistry	9
V. Classification of Vegetable Tannins	10

**CHAPTER 2. Condensed Tannins – Analysis of the Extracts**

I. Introduction	14
II. Preparation of Plant Extracts	17
III. Qualitative Analysis of Flavonoid Compounds	18
IV. Isolation of Flavonoid Compounds from Plant Extracts	28
V. Identification of Flavonoid Compounds – Physical Methods	30
VI. Reactions and Stereochemistry of Flavan-3ols	41
VII. Reactions and Stereochemistry of Flavan-3, 4-diols	48
VIII. Isolation and Identification of Stilbene Compounds	58

**CHAPTER 3. Condensed Tannins – Structure**

I. Chemical Degradation	66
II. The Condensation-Polymerization Reactions of Flavan-3-ols and Flavan-3, 4-diols	69
III. The Oxidative Polymerization of Flavan-3-ols	81

**CHAPTER 4. The Hydrolysable Tannins**

I. Introduction	91
II. Preparation of Plant Extracts	92
III. Paper Chromatographic Analysis of Hydrolysable Tannins	94
IV. Quantitative Estimation of Galloyl Esters in Plant Extracts	98
V. Isolation of the Hydrolysable Tannins	100
VI. Analysis of Hydrolysable Tannins	102
VII. Gallotannins and Other Naturally Occurring Galloyl Esters	105
VIII. Ellagitannins	122

<b>CHAPTER 5. The Biosynthesis of Plant Polyphenols</b>	
I. Introduction	143
II. The Acetate Pathway	146
III. The Shikimic Acid Pathway	148
IV. Metabolism of C <sub>6</sub> C <sub>3</sub> Compounds in Plants	152
V. Biosynthesis of Flavonoids and Condensed Tannins	157
VI. Biosynthesis of Hydrolysable Tannins	162
VII. Aspects of the Chemotaxonomy of the Hydrolysable Tannins	167
GENERAL INDEX	173
BOTANICAL INDEX	178
