

## CONTENTS

	PAGE
Commercialization of New Colloidal Polymer Microcrystals	1
Fibers	5
High Modulus Polymers	15
Asymmetric Polysulfone Hollow Fiber Membranes for Gas Separations	17
Coatings	29
Applications of Polymers in Packaging	39
High Performance Polymers	43
PAS-2-High Performance Prepreg and Composites	47
Compatibility and Practical Properties of Polymer Blends	53
New Directions in Industrial Polysaccharides	65
Conductive Polymers	69
Reaction of Macroradicals	73
Free Radical Ring-Opening Polymerization of Spirotriene Monomers	79
Variety of Organometallic and Metal-Containing Polymers	93
Applications of Organometallic Polymers	113
Polymeric Foams	125
Use of An Effective Quality Management System for Business Improvement in the Plastics	
Industry	127
Applied Polymer Science-A Forecast	143
Index	155
