

CONTENTS

CHAPTER 1

Polyelectrolytes	1
I. Introduction	1
II. Important Synthetic Polyelectrolytes	8
III. Other Synthetic Polyelectrolytes	54

CHAPTER 2

Interactions with Small-Molecule Cosolutes	77
I. General Features of Cosolute Effects	77
II. Specific Effects (Cosolute Binding)	79
III. Generic Effects	124
IV. The Effects of Urea, Guanidinium Chloride, and “Denaturing” Cosolutes	135

CHAPTER 3

Interactions Between Polymers	
I. Introduction	159
II. Incompatibility	167
III. Complex Coacervation	170
IV. Fully Homogeneous Systems	173

CHAPTER 4

Polymers at Interfaces	179
I. Introduction	179
II. Water/Air Interface	181
III. Water/Non-Aqueous Liquid Interface	185
IV. Solid/Water Interface	190
Index	239
