

TABLE OF CONTENTS

AI

An Orderly Approach to Natural Product Screening and Drug Development	
Malone, M.H.	
Immunomodulating Agents from Higher Plants	11
Wagner, H.	
Strategies for Evaluation of Indian Medicinal Plants with Particular Reference to CDRI Experience	
Dhawan, B.N.	
Experiences from Research on Plants used in East African Traditional Medicine	33
Samuelsson, G.	
The Terpene Chemistry of some African Burseraceae	45
Waterman, P.G.	
Plants as Sources of Antimalarial Drugs	55
Phillipson, J.D., O'Neill, M.J. and Warhurst, D.C.	
Safety and Efficacy of Novel or Modified Foods and of Plant Derived Medicines and Industrial Chemicals	69
Newberne, P.M.	
The Role of Blood Cell Forming Tissues in the Evaluation of the Toxicity of Drugs and Chemical Compounds ...	86
Fliedner, T.M.	
Importance of Multipolar Interactions and the Possible role of the Phenyl Group in Drug Receptor Interactions	
Reisse, J. and Stien, M.L.	
Possibilities and Limitations of Cancer Chemotherapy	123
Schmahl, D.	
Natural Products as the Basis for the Design and Synthesis of Dopamine Agonists and Antagonists	141
Neumeyer, J.L., Ramsby, S., Gao, Y-G., and Zong, R.	
Arsenic Transformations in Marine Model Ecosystems	150
Toia, R.F., Ismail, H., and Anantachoke, C.	
Bioactive Analogues of Doridosine	160
Kim, Y.H. and Lee, S.J.	
Biological Screening and Chemical Studies on Some Swedish Marine Organisms	170
Bohlin, L.	

BI

Nature's Pathway for the Formation of Isoquinoline Alkaloids	193
Zenk, M.H.	
Studies in Plant Tissue Culture. Synthesis and Biosynthesis of Biologically Active Natural Products	203
Kutney, J.P.	
Secondary Metabolism in Plant Cell Cultures of Some Terpenoid-Indole Alkaloid Producing Plant Species	209
Verpoorte, R., van der Heijden, R., Harkes, P.A.A., ten Hoopen, H.J.G. and Pennings, E.J.M.	
Control of Alkaloid Production in Tissues of <i>Sanguinaria canadensis</i>	219
Bhamarapravati, S., Krueger, R. and Beecher, C.W.W.	
Antimicrobial Activities of Essential Oils	229
Janssen, A.M., Scheffer, J.J.C. and Svendsen, A. Baerheim	
Utilization of Natural Products for Development of Pest Control Chemicals	238
Yamamoto, I., Kato, S., and Ohsawa, K.	
Prostaglandins (PGs) in Animal Luteolysis	247
Granstrom, E. and Kindahl, H.	
The WHO Special Programme of Research, Development and Research Training in Human Reproduction and its Task Force on Plants for Fertility Regulation	
Griffin, P.D.	
Selecting Plants for Experimental Evaluation as Oral Contraceptives in the WHO Programme	265
Bingel, A.S. and Farnsworth, N.R.	
Bioassays used for the Identification of Antifertility Agents of Plant Origin	276
Flint, A.P.F.	
A Survey of Plants with Antifertility Properties Described in The South America Folk Medicina	285
Gonzalez, F. and Silva M.	
Search for Fertility Regulating Agents from <i>Larrea Tridentata</i>	
Konno, C., Martin, A., Ma, B.-X., Lu, Z.-Z., Xue, H-Z., Erdelmeier, C.A.J., Nuzzo, N.A., Soejarto, D.D., Cordell, G.A.: Waller, D.P. and Fong H.H.S	

Yuehchukene-A New Frontier in Natural Product Pharmacology ..	338
Kong, Y.C. and But, P.P.H.	
Synthesis of Yuehchukene and Its Analogues	345
Cheng, K.F. and Chan, T.Y.	
Screening of Natural Products for Male Antifertility Activity	352
Waller, D.P.	
Estradiol to Centchroman, An Antifertility and Anticancer Agent	361
Anand, A.	
Computational Biochemistry	374
Witschel, W.	
The Present Status of Computational Chemistry	384
Rode R M	
CI	
Chemistry of Tunichromes, The Reducing Blood Pigments of Tunicates (Sea Squirts)	401
Oltz, E.M., Smith, M.J., Lee, S., Horenstein, B., Ruberto, G., Bruening, R., Kustin, K., Nakanishi, K.	
Marine Chemistry and Chemical Ecology	406
Coll, J.C., Bowden, B.F., Vasilescu-Bowden, I.M., Alino, P. and Heaton, A.	
Biologically Active Constituents from Several Marine Sponges	416
Kitagawa, I.	
Structural Elucidation of Glycosidic Antibiotics Produced by Basidiomycetes	423
Nishida, F., Mori, Y., Harada, K. and Suzuki, M.	
The Orthosomycins - A New Family of Antibiotics	430
Ollis, W.D.	
Isolation, Structure Determination and Pharmacology of Avellanins A and B from A Fungus, <i>Hamigera avellanea</i>	443
Yamazaki, M.	
Novel Antitumor Alkaloids from Two Marine Sponges	450
Sakai, R., Ichiba, T. and Kohmoto, S.	
The Alkaloids of <i>Delphinium macrocentrum</i> Oliv. from Kenya	460
Benn, M. and Okanga, F.	
Chemical Studies on the Indole Alkaloids of <i>Gelsemium elegans</i>	468
Sakai, S., Takayama, H., Yokota, M., Kitajima, M., Masubuchi, K., Ogata, K., Aimi, N., Wongseripipatana, S., and Ponglux,	
Chemical Transformations of Ajmalicine - A Biologically Active Indole Alkaloid from Apocynaceous Species	475
Chatterjee, A.	
Novel Alkaloids and Neolignans from <i>Eupomatia</i> Species	489
Taylor, W.C.	
Isolation and Structure Elucidation of New Steroidal Alkaloids from <i>Buxus</i> Species	498
Atta-ur-Rahman	
Studies on the Constituents of Thai Medicinal Plants Using One and Two Dimensional NMR Techniques	507
Cordell, G.A., Hamburger, M.O., Blasko, G., Meksuriyen, D., Tantivatana, P., Ruangrunsi, N. and Bunyapraphatsara, N.	
Some Newer Applications of CD-Spectroscopy in Natural Products Chemistry	520
Snatzke, G.	
Studies on the Esperamicin Family of Antitumor Antibiotics	529
Van Duyne G.D., and Clardy, J.	
Structural Elucidation of Natural Products by New NMR Techniques	537
Seto, H.	
Novel Triterpenoids of Sri Lankan Celastraceae	544
Gunatilaka, A.A.L.	
Insect Feeding and Development Controlling Constituents of Meliaceae	554
Kraus, W., Baumann, S., Bokel, M., Cramer, R., Grimminger, W., Hendlmeier, R., Keil, E., Keller, U., Klenk, A., Klingele, M.	
Pohnl, H., and Schwinger, M.	
Synthetic and Naturally Occurring Phototoxins for The Control of Mosquitoes and Other Pest Organisms	564
Arnason, J.T., Morand, P., Philogene, B.J.R., Scaiano, J.C. and Werstiuk, N.	
Name Index	575
