

CONTENTS

Chapter 1 Electrical Conduction in Polymers	1
Chapter 2 Structure and Charge Generation in Low-Dimensional Organic Molecular Self-Assemblies	59
Chapter 3 Photophysical Processes, Energy Transfer, and Photoconduction in Polymers	93
Chapter 4 Photovoltaic Phenomena in Organic Solids	127
Chapter 5 Thermally Stimulated Discharge Current Analysis of Polymers	215
Chapter 6 Polymeric Electrets	242
Chapter 7 Contact Electrification of Polymers and Its Elimination	285
Chapter 8 Dielectric Breakdown Phenomena in Polymers	319
Index	369
