

CONTENTS

PART 1. AGEING OF VINYL CHLORIDE-BASED POLYMERS	
CHAPTER 1. Macromolecular Structure of Vinyl Chloride Polymers	3
CHAPTER 2. Degradation of Vinyl Chloride-based Polymers	73
CHAPTER 3. PVC Degradation Under Attack of Chemical Agents	187
PART II. STABILIZATION OF VINYL CHLORIDE-BASED POLYMERS	
CHAPTER 4. Fundamental Principles	249
CHAPTER 5. Fundamentals of Vinyl Chloride Homopolymers and Copolymers Stabilization Under Thermal Degradation	258
CHAPTER 6. Stabilization to Radiation	360
CHAPTER 7. Special-Purpose Stabilization of Vinyl Chloride Polymers	373
PART III. SOME ASPECTS OF POLY(VINYL CHLORIDE) TECHNOLOGY AND APPLICATIONS	
CHAPTER 8. Basic Processes and Principles of Stabilization	389
CHAPTER 9. Optimization of PVC Compositions	398
CHAPTER 10. Reutilization of Poly(Vinyl Chloride)	441
CHAPTER 11. Service Ageing of Polymer Materials and Accelerated Ageing Tests	456
CHAPTER 12. Prediction: Criteria and Methods	471
INSTEAD OF EPILOGUE	489
APPENDIX	491
INDEX	495
