<i>Chapter 1</i>	
<b>CLASSIFICATION AND GENERAL PROPERTIES OF IONIC POLYMERS—L. HOLLIDAY</b>	
1.1 Introduction . . . . .	1
1.2 Classification of Ionic Polymers . . . . .	5
1.3 Some Typical Examples of Ionic Polymers . . . . .	9
1.3.1 Covalent networks and sheets containing ionic bonds . . . . .	9
1.3.2 Long covalent chains containing ionic bonds . . . . .	17
1.3.3 Short covalent chains plus ionic bonds . . . . .	27
1.4 Some Structural Features of Ionic Polymers . . . . .	28
1.4.1 Concentration of ionic bonds . . . . .	28
1.4.2 Aggregation of ions . . . . .	30
1.5 Some Physical Properties of Ionic Polymers . . . . .	35
1.5.1 Glass transitions in ionic polymers . . . . .	35
1.5.2 Melting point . . . . .	46
1.5.3 Viscoelastic properties . . . . .	50
1.5.4 Melt behaviour . . . . .	50
1.5.5 Relaxation behaviour . . . . .	54
1.5.6 Stiffness . . . . .	56
1.5.7 Strength . . . . .	62
1.5.8 Thermal expansion . . . . .	63
1.5.9 Hydrolytic stability . . . . .	64
1.6 Conclusions . . . . .	66
References . . . . .	67

*Chapter 2***THERMOPLASTIC IONIC POLYMERS: IONOMERS***R. LONGWORTH*

2.1	Introduction . . . . .	
2.2	Preparation and Characterisation	
2.3	Physical and Mechanical Properties	
2.4	Electron Microscopy . . . . .	
2.5	Rheological Properties . . . . .	93
	2.5.1 Steady-state viscosity at low shear stresses	93
	2.5.2 Non-Newtonian viscosities	101
	2.5.3 Viscoelastic properties . . . . .	104
2.6	Relaxation Behaviour . . . . .	109
	2.6.1 Dynamic mechanical properties	109
	2.6.2 Electrical properties . . . . .	
2.7	Infra-red Spectroscopy . . . . .	
2.8	X-Ray Diffraction . . . . .	134
2.9	Optical Properties of Ionomers	144
2.10	Thermal Properties of Ionomers	150
2.11	The Structure of Ionomers . . . . .	154
2.12	Water Absorption and Plasticisation	162
2.13	Conclusion . . . . .	
	Acknowledgments . . . . .	
	References	

*Chapter 3***CARBOXYLATED ELASTOMERS** *D. K. JENKINS and E. W. DUCK*

3.1	Introduction	73
3.2	Historic	77
3.3	Preparation	
3.4	Properties	179
	3.4.1 Unvulcanised elastomer . . . . .	179
	3.4.2 Vulcanisation with metal oxides . . . . .	180
	3.4.3 Mixed vulcanisation . . . . .	185
3.5	Nature of the Cross-Link in Oxide Vulcanisation	190
3.6	Uses of Carboxylated Rubber . . . . .	194
	3.6.1 Solid and solution rubber . . . . .	194
	3.6.2 Latex rubber . . . . .	199
		205
		206

*Chapter 7***CRYSTALLINE SILICATES AND PHOSPHATES AS IONIC POLYMERS—J. H. ELLIOTT**

7.1	Introduction . . . . .	300
7.2	Interatomic Bonding in Ionic Silicates and Phosphates . . . . .	301
	7.2.1 Electronic structure . . . . .	301
	7.2.2 Tetrahedral symmetry of the $\text{SiO}_4$ and $\text{PO}_4$ groups . . . . .	303
	7.2.3 Silicate polymers . . . . .	305
	7.2.4 Phosphate polymers . . . . .	307
	7.2.5 Copolymers . . . . .	308
7.3	Sources and Synthesis of Ionic Silicates and Phosphates . . . . .	310
	7.3.1 Naturally occurring silicate polymers . . . . .	310
	7.3.2 Synthetic silicate and phosphate polymers . . . . .	312
	7.3.3 Characterisation . . . . .	322
7.4	Structures of Crystalline Ionic Silicate and Phosphate Polymers . . . . .	323
	7.4.1 Structures of oligomers . . . . .	324
	7.4.2 Structures of infinite chain polymers . . . . .	328
	7.4.3 Structures of cross-linked and branched chain polymers . . . . .	332
	7.4.4 Structures of 2-D sheet polymers . . . . .	337
	7.4.5 Structure of 3-D framework polymers . . . . .	
7.5	Structure/Property Relationships of Ionic Silicate and Phosphate Polymers . . . . .	345
	7.5.1 Cleavage of infinite chain and 2-D sheet polymers . . . . .	346
	7.5.2 The strength of asbestos . . . . .	348
	7.5.3 Thermal stability . . . . .	350
	7.5.4 Hydrolytic degradation of polyphosphates . . . . .	353
	7.5.5 Hydrolytic stability of silicate polymers . . . . .	354
	7.5.6 Hydration/dehydration properties of zeolites and bentonites . . . . .	356
	7.5.7 Ion exchange . . . . .	357
	7.5.8 The stability of colloidal suspensions . . . . .	358
	References . . . . .	361

*Chapter 8***INORGANIC GLASSES AS IONIC POLYMERS—N. H. RAY**

8.1	Introduction . . . . .	363
	8.1.1 Polymeric nature of glasses . . . . .	364
8.2	Oxide Glasses . . . . .	366
8.3	Particular Oxide Glasses . . . . .	379
	8.3.1 3-Connective networks—phosphate glasses . . . . .	379
	8.3.2 3- to 4-Connective networks—borate glasses . . . . .	386
	8.3.3 4-Connective networks—silica and silicate glasses . . . . .	392
8.4	Chalcogenide glasses . . . . .	400
8.5	Conclusions . . . . .	404
	References . . . . .
