

CONTENTS

THE FORMATION, CHARACTERIZATION, AND PROPERTIES OF POLYMERS

Polymer Preparation	4
Copolymers	18
Random Copolymers	20
Block and Graft Copolymers	22
Polymer Characterization	23
The Glass-Transition Temperature Range	26
The Concept of Solubility Parameters	30

2. GLYCERIDE OILS 33

Occurrence, Isolation, and Structure of Glyceride Oils	33
Autoxidation	36
Nonconjugated Fatty Acids and Esters	37
Conjugated Fatty Acids and Esters	44
Film Formation and Degradation	46
Nonconjugated Systems	47
Conjugated Systems	49
Autoxidation Catalysts—Driers	50
Coordination Complexes as Driers	54
Yellowing and Discoloration of Oil Films	55
Modified Oils	57
Isomerized Oils	58
<i>cis-trans</i> Isomerism	58
Nonconjugated to Conjugated Isomerization	58
Dehydration	59
Polymerized and Maleinized Oils	63
Reaction of Oils with Maleic Anhydride and Other Dienophiles	68

3. VARNISHES AND ALKYD RESINS	72
Varnishes	73
Alkyd Resins	75
Theory of Polyesterification	75

CONTENTS

Methods of Preparing and Processing Alkyds	83
The Effects of Chemical Composition on the Preparation and Film-Forming Reactions of Alkyd Resins	87
Molecular Weight Distribution	101
4. VINYL AND ACRYLIC MODIFIED OILS AND ALKYDS	113
Blending of the Two Polymer Entities	113
Modifications Involving the Unsaturation of the Fatty Acid	115
Methods of Chemically Combining the Polymer Entities (Esterification and Etherification)	120
5. UNSATURATED POLYESTERS AND HIGH SOLIDS COATING SYSTEMS	127
Unsaturated Polyesters	127
The Unsaturated Polyester Backbone Polymer	129
The Polymerizable Solvent	134
The Initiating System	135
Stabilization of Polyester Solutions	139
Air Inhibition	141
High Solids Systems	145
6. THERMOPLASTIC CELLULOSE, ACRYLIC, AND VINYL COATINGS	149
Cellulose Derivatives	150
Cellulose Nitrate	151
Organic Esters of Cellulose	152
Organic Ethers of Cellulose	153
Acrylic Polymers and Copolymers	153
Acrylic Organosols	161
Vinyl Polymers and Copolymers	164
Poly(ethylene)	164
Poly(styrene)	166
Fluorine-Containing Polymers	167
Poly(vinyl acetate)	168
Vinyl Chloride Polymers	171
7. EPOXY RESINS	79
Synthesis of Epoxy Resins	79
Film Formation from Epoxy Resins	86
Self-Condensation of Epoxy Resins	86
Reaction of Epoxy Resins with Amines	89
Esterification of Epoxy Resins	92

	Rea	Epoxy R lic Group	Methv	Hvdroxv
