Preface

ix
xiii

1 Fluorine-19 and Carbon-13 NMR Spectra of Polyperfluorobutadiene

MADELINE S. TOY AND ROGER S. STRINGHAM

- I. Introduction
- II. Experimental Technique
- III. Results and Discussion
- References

2 Carbon-13 NMR Spectra of Polyalkenamers

HUNGYUCHEN

- I. Introduction
- II. Experimental Technique
- III. Results
- IV. Discussion
- References

3 Proton and Carbon-13 NMR Spectra of Ethylene-Carbon Monoxide Copolymers

TING KAI WU, DERICK W. OVENALL, AND HARVEY H. HOEHN

- I. Introduction 19
- II. Experimental Technique 20
- III. Results and Discussion 20
- Appendix. Sequence Distributions in Semialternating Copolymers 38
- References 39

V. Summary	98
References	98
8 Chemiluminescence Study of the Autoxidation of <i>cis</i>-1,4-Polyisoprene	
G. DAVID MENDENHALL, RICHARD A. NATHAN, AND MORTON A. GOLUB	
I. Introduction	102
II. Experimental Technique	102
III. Results	105
IV. Discussion	115
References	118
9 Raman Spectra of Biopolymers	
BERNARD J. BULKIN	
I. Introduction	121
II. Experimental Technique	121
III. Applications	125
References	132
10 Fourier Transform Infrared Spectra of Macromolecules	
M. M. COLEMAN AND P. C. PAINTER	
I. Introduction	135
II. Optically Dense Materials	136
III. Spectral Manipulations	144
References	168
11 Reflection-Absorption Infrared Spectra of γ-Aminopropyltriethoxysilane Adsorbed on Bulk Iron	
F. J. BOERIO	
I. Introduction	171
II. Reflection-Absorption Infrared Spectroscopy	174
III. Experimental Technique	176
IV. Results and Discussion	177
V. Conclusions	183
References	183
12 Dynamic Infrared of Polymers	
R. P. WOOL AND W. O. STATTON	
I. Introduction	185
II. Frequency Shifting	186

III. Molecular Orientation	193
IV. Applications	196
V. Conclusions	204
References	204
13 Characterization of Polymer Deformation and Fracture	
DAVID K. ROYLANCE	
I. Kinetic Models of Polymer Fracture	207
II. ESR Observations of Stress-Induced Bond Rupture in Polymers	209
III. Associated Studies	217
References	219
14 Stress Mass Spectrometry of Nylon 66	
MICHAEL A. GRAYSON AND CLARENCE J. WOLF	
I. Introduction	221
II. Experimental Technique	225
III. Results and Discussion	228
IV. Conclusion	237
References	238
15 Characterization of Polymer Decomposition Products by Electron Impact and Chemical Ionization Mass Spectrometry	
D. A. CHATFIELD, F. D. HILEMAN, K. J. VOORHEES, I. N. EINHORN, AND J. H. FUTRELL	
I. Introduction	241
II. Mass Spectrometry	242
III. Applications	247
IV. Conclusions	255
References	256
16 Mass Spectrometry of Thermally Treated Polymers	
G. J. MOL, R. J. GRITTER, AND G. E. ADAMS	
I. Introduction	257
II. Instrumentation and Experimental Techniques	259
III. Results and Discussion	261
IV. Summary	276
References	277
<i>Author Index</i>	279
<i>Subject Index</i>	287
