

## CONTENTS

Foreword <i>by</i> PROFESSOR H. MARK, <i>Polytechnic Institute of Brooklyn</i>	ix
Introduction <i>by</i> P. H. PLESCH	xi
1. Carbonium Ions <i>by</i> M. L. BURSTALL, <i>Battersea College of Technology London</i> , and F. E. TRELOAR, <i>University of Malaya</i>	1
2. Organic Reactions Related to Cationic Polymerization <i>by</i> M. L. BURSTALL, <i>Battersea College of Technology, London</i>	43
3. A Comparison of the Radical, Cationic and Anionic Mechanisms of Addition Polymerization <i>by</i> P. E. M. ALLEN, <i>University of Birmingham</i> , and P. H. PLESCH	99
4. Isobutene <i>by</i> P. H. PLESCH	141
5. Aliphatic Mono-olefins other than Isobutene <i>by</i> C. M. FONTANA, <i>Celanese Cor- poration of America</i>	209
6. Styrene <i>by</i> PROFESSOR A. R. MATHIESON, <i>University of Northern Nigeria</i> .	235
7. Aryl Olefins other than Styrene <i>by</i> S. BYWATER, <i>N.R.C., Ottawa</i>	305
8. Polyenes <i>by</i> W. COOPER, <i>Dunlop Rubber Company</i>	349
9. Vinyl Ethers <i>by</i> PROFESSOR D. D. ELEY, <i>University of Nottingham</i>	375
10. Epoxides <i>by</i> A. M. EASTHAM, <i>N. R. C., Ottawa</i>	401
11. Cyclic Oxygen Compounds other than Epoxides <i>by</i> J. B. ROSE, <i>I. C. I. Plastics Division</i>	431
12. Miscellaneous Oxygen Compounds <i>by</i> A. SCHRAGE, <i>Rexall Chemical Company</i>	451
13. Sulphur Compounds <i>by</i> J. LAL, <i>Goodyear Tire and Rubber Company</i>	477
14. Nitrogen Compounds <i>by</i> G. D. JONES, <i>Dow Chemical Company</i>	513
15. Co-polymerization <i>by</i> R. B. CUNDALL, <i>University of Nottingham</i>	549
16. Cationic Reactions of Polymers and Cationic Graft Polymerization <i>by</i> PROFESSOR G. SMETS and M. VAN BEYLEN, <i>University of Louvain</i>	597
17. Cationic Polymerizations induced by High Energy Radiation <i>by</i> S. H. PINNER, <i>BX Plastic Ltd.</i>	611
18. Experimental Techniques <i>by</i> P. H. PLESCH	673
Compound Index	689
Subject Index	703
Name Index	712
