

CONTENTS

Chapter 1: Introduction and Review	1
Chapter 2: Orbitals, Reactions and Functional Groups	47
Chapter 3: Organic Spectroscopy I: Infrared and UV-Visible Spectroscopy	95
Chapter 4: Saturated Hydrocarbons: The Nomenclature and Shape of Organic Compounds	125
Chapter 5: Stereochemistry: The Shapes and Reactivity of Organic Molecules	161
Chapter 6: Organic Spectroscopy II: Nuclear Magnetic Resonance Spectroscopy	195
Chapter 7: Alkyl Halides I: The Chemistry of Polar σ Bonds – Nucleophilic Substitution	229
Chapter 8: Alkyl Halides II: Preparation, Elimination Reactions & Organometallic Compounds	269
Chapter 9: Alkenes and Dienes I: The Chemistry of Non-Polar π Bonds – Electrophilic Addition	309
Chapter 10: Alkenes and Dienes II: Their Synthesis, Redox Chemistry, and Pericyclic Reactions	353
Chapter 11: Aldehydes, Ketones and Nitriles I: Nucleophilic Addition to Polar π Bonds	409
Chapter 12: Aldehydes, Ketones and Nitriles II: Reactions of Enolates	455
Chapter 13: Aldehydes, Ketones & Nitriles III: Redox Reactions of Carbonyl Compounds	491
Chapter 14: Alcohols, Ethers and Amines I: Organic Derivatives of Water and Ammonia	515
Chapter 15: Alcohols, Ethers and Amines II: Synthesis, Redox Reactions and Eliminations	567
Chapter 16: Carboxylic Acids and Their Derivatives I: Nucleophilic Acyl Substitution	605
Chapter 17: Carboxylic Acids & Their Derivatives II: Acid-Base and Other Reactions	647
Chapter 18: Difunctional Carbonyl Compounds	675
Chapter 19: Aromatic Compounds I: Aromaticity and Electrophilic Aromatic Substitution	703
Chapter 20: Aromatic Compounds II: Other Reactions of Arenes	747
Chapter 21: Alkynes and Allenes	791
Chapter 22: Organic Spectroscopy III: Organic Mass Spectrometry	826
Chapter 23: Modern Free Radical Chemistry	843
Chapter 24: Silicon, Tin, Phosphorus, Sulfur & Selenium: The Organic Chemistry of 3 rd -4 th and 5 th -Row Elements	877
Chapter 25: Organic Synthesis: The Art of Combining Organic Reactions	915
Chapter 26: Polymers: The Synthesis & Reactions of Macromolecules	947
Chapter 27: Biological Molecules I: Amino Acids, Peptides & Proteins	973
Chapter 28: Biological Molecules II: Carbohydrates & Nucleic Acids	1009
Chapter 29: Biological Molecules III: Lipids	1045
Chapter 30: Biological Molecules IV: Natural Products Chemistry-Secondary Metabolites and Their Biosynthesis	1063
Index	1095
