

CONTENTS

Introduction	1
1. The Alcohols	6
2. Alkyl Halides and Ethers	24
3. Saturated or Paraffin Hydrocarbons	39
4. Unsaturated Hydrocarbons	49
5. Gasoline and Rubber	65
6. Aldehydes and Ketones	80
7. Organic Acids	103
8. Polyhydric Alcohols: Fats and Oils	122
9. Industrial and Laboratory Syntheses	139
10. Derivatives of Ammonia: Amides and Amines	151
11. Acids Containing Two or More Functional Groups	167
12. Stereoisomerism	184
13. The Carbohydrates	199
14. The Amino Acids and Proteins	219
15. Biochemical Processes	238
16. Benzene and the Alkylbenzenes	254
17. Aryl Halides, Sulfonic Acids, and Phenols	264
18. Aromatic Nitro Compounds, Amines, Diazonium Salts, and Azo Dyes	279
19. Aromatic Alcohols, Aldehydes, Ketones, and Acids	297
20. Polynuclear Aromatic Compounds	319
21. Alicyclic Compounds and Related Natural Products	334
22. Heterocyclic Compounds	356
23. Natural and Synthetic Drugs	381
Index	397
