<b>Keynote and Invited Speaker Abstracts .....</b>	<b>1-25</b>
<b>KI-01 Global organic market access</b> Andre Leu, Australia	
<b>KI-02 Thailand national innovation strategy for organic agriculture movement</b> Supachai Lorlowhakarn and Kunawut Boonyanopakun, Thailand	
<b>KI-03 Regulation &amp; certification: How to break the barriers among the APEC member economies</b> Andrew Monk, Australia	
<b>KI-04 Organic agriculture mitigates climate change</b> Kuan Meng Goh, New Zealand	
<b>KI-05 The situation of organic farming and market development in European countries</b> Sabine Zikeli, Germany	
<b>KI-06 How to minimize postharvest losses of organic produce</b> John B. Golding, Australia	
<b>KI-07 Women in organic agriculture: Sustainable food production and social development in equality for all communities worldwide</b> Jacqueline Haessig Alleje, Philippines	
<b>KI-08 The ways to manage the organic crop/produces from farm through packing-house and how to enhance organic produces in the market and trade</b> Soonthorn Sritawee, Thailand	
<b>KI-09 Organic vegetable: Trend in breeding and selection for our Asia-Pacific region</b> Rodel G. Maghirang and Grace D. Docuyan, Philippines	
<b>KI-10 IPM in small sustainable low input vegetable production</b> Peter A.C. Ooi and Somchit Preongwitayakun, Thailand	
<b>KI-11 Developing organic coffee in Indonesia: Transfer technology from farm to the market</b> Agung Prawoto, Indonesia	
<b>KI-12 Trust and the shape of the organic market: Japan's case</b> Yoko Taniguchi, Japan	
<b>KI-13 Current research on organic agriculture in the Asia-Pacific region and worldwide</b> Sang Mok Sohn, Korea	
<b>KI-14 The advance of organic seed research and its benefit to seed industries</b> Steven P.C. Groot, the Netherlands	
<b>KI-15 Integrated cultural programs for the production of cash crops in organic systems</b> Hector R. Valenzuela, U.S.A.	
<b>KI-16 Organic agriculture affects seedling health and soil quality</b> Paul Reed Hepperly, U.S.A.	
<b>KI-17 World organic food trade and its impact on the Asia Pacific region</b> Supachit Manopimoke, Japan	
<b>KI-18 The business of organic agriculture in China</b> Xia Wang, Xingji Xiao, Jibin Zhang and Weichao Zhang, PR China	
<b>KI-19 How to develop organic standards that is best suited for Thailand and developing economies</b> Chayaporn Wattanasiri, Thailand	

- KI-20 Developing organic brand through building trust and quality – sharing Zenxin experience**  
Tai Seng Yee, Singapore
- KI-21 The role of private sector in organic agriculture development**  
Wanlop Pichpongsa, Thailand
- KI-22 Development and perspective of organic agriculture in Vietnam**  
Le Thanh Hoa, Vietnam
- KI-23 Do organic produce have to be ‘Ugly’?**  
Stephen K. Ng, Canada
- KI-24 Organic agri-food supply chain management**  
Udo Censkowsky, Germany
- KI-25 The organic agriculture in Northern Thailand farming system**  
Siriwat Wongsiri, Thailand

**Oral Presentation Abstracts..... 26-36**

- OP-01 Customization and standardization of certification processes for organic production through elements of learning participation**  
*M.K. Pandit and S.K. Acharya, India*
- OP-02 Bhutan’s agriculture development approach, (for areas that are poor in resources)**  
*Kesang Tshomo, Bhutan*
- OP-03 Screening and partial characterization of *Bacillus* spp. for their potential controlling of chalkbrood disease in honey bees**  
*Titiya Chittihunsa, Tipaporn Subsomborn and Witawat Handee, Thailand*
- OP-04 Branding as the marketing strategy for organic products: A case study of ‘Moral Rice’**  
*Juthatip Patrawart, Thailand*
- OP-05 Essential oil of fennel (*Foeniculum vulgare* L.) affected by seed inoculation with *Azospirillum* strains and seed coating with microelements in semi arid region**  
*Bahram Mirshekari, Farhad Farahvash, Aziz Javanshir, Alireza Tarinejad and Amir Houshang Hossein Zadeh Moghbeli, Iran*
- OP-06 Application of chitosan as preservatives on organic fruits**  
*Kevin Angga Saputra, Amelinda Angela, Reggie Surya, Yesua Gifsan and Priskila, Indonesia*
- OP-07 The market within is the Real Organic Market! : First study of domestic market-potential in India**  
*Manoj Kumar Menon, India*
- OP-08 Effect of seed inoculation with nitrogen fixing bacteria (*Azotobacter* and Nitroxine biofertilizers) on yield component of *Zea mays* L. (704 hybrid)**  
*Farhad Farahvash, Hoshang Taghizadeh, Bahram Mirshekari and Sharam Hanifian, Iran*
- OP-09 From production to the consumer: What German Technical Cooperation offers to establish a successful organic farming business**  
*Wilasinee Poonuchaphai, Thailand*
- OP-10 Organic market niche in Taiwan: The case of Tze-Hin**  
*Chang, Long-Hsien, Taiwan*
- OP-11 Changes in soil biological activity relative to tillage method under dry land farming in Iran**  
*Mohammad J. Zarea, Zahra Rashidi, Farhad Rejali and Ali Ashraf mehrabi, Iran*

# Contents

- Oral Presentation Abstracts..... 37-55**
- OP-12 Effects of conventional and organic production system on seed yield and active substance of *Silybum marianum* L.**  
*M. Haj Seyed Hadi, M. Darzi and E. Sharifi Ashoorabadi, Iran*
- OP-13 A marketing strategy to increase buyers' purchasing power of organic products by public opinion and perception approach**  
*Eri Hadyansyah, Indonesia*
- OP-14 On-field assessment of critical period of weed interference in okra [*Abelmoschus esculentus* (L.) Moench] fields in Ibadan, a rainforest-savanna transition eco-zone of Nigeria**  
*Rasheed Olufemi Awodoyin and Oluseun Sunday Olubode, Nigeria*
- OP-15 Survival or Growth: "Marketing strategies in the attention of Indian organic produce sector"**  
*Ramesh Mittal, India*
- OP-16 Farmer empowerment through social capital reinforcement road to sustainable organic agriculture development (Case study: Association of Indonesian farmer, Cibereum Situleutik village, Dramaga, Bogor, West Java, Indonesia)**  
*Aero Widiarta, Isma Rosyida, Rajib Gandi and Humayra Secelia Muswar, Indonesia*
- OP-17 Applied organic systems, carbon farming and climate change**  
*Andre Leu, Australia*
- OP-18 The marketing strategy of Sumbawa organics horse milk**  
*Ratna Siwang, Indonesia*
- OP-19 'Quality' of organic materials for improved soil fertility in an organic rice production system**  
*Gina Villegas-Pangga, Philippines*
- OP-20 *Eudrilus Eugeniae* worm meal effective in feeding Nile Tilapia (*Oreochromis niloticus*) in the Philippines**  
*Sheila Marie G. Gilo, Elmer T. Castañeto and Jerry A. Mahor, Jr., Philippines*
- OP-21 Effect of trap color on relative efficiency of water pan traps for sampling alate aphids *Therioaphis trifolii* in berseem crop**  
*J.M. Mari, S.M. Nizamani and M.K. Lohar, Pakistan*
- OP-22 Vermicompost effects on cucumber growth and yield**  
*Behrooz Esmaeilpour and Esmaeil Chamani, Iran*
- OP-23 Integrated disease management in apple orchards converting to organic production**  
*K.P. Singh, Dinesh Prasad and J. Kumar, India*
- OP-24 Perspective on using plant extracts as alternative insecticides for the development of organic agriculture**  
*Supanee Pimsamarn, Thailand*
- OP-25 Effects of moisture heating and vacuum fry on organic and conventional okra quality**  
*Aumaporn Arlai, Thailand*
- OP-26 Organic Pakistani apple and vegetables production is viable through using plant extracts and compost to control the insects/pests and provide fertility**  
*Rasool Bakhsh Tareen, Pakistan*

- OP-27 Enhancement of soil microbial metabolic activity in tomato field plots by chitin application**  
*Porntip Wongkaew*, Thailand
- OP-28 Cultivar and farming practice affect yield and quality of Thai rice**  
*Preeya Puangsomlee Wangsomnuk*, Kantiwa Saenprom, Suta Poosittisak, Paweena Pongdontri, Pinich Wangsomnuk, Anan Polthanee, and Manit Kositraku, Thailand
- OP-29 Low external input weed control under no-till organic lowland rice production: An action research for poor farmers in a rainfed system**  
*Sawaeng Ruaysoongnern*, Thailand
- OP-30 Influence of hydropriming and sugar metabolism on germination of maize seeds (*Zea mays* L.)**  
*Taksaon Boonchoo*, Songsin Photchanachai, Panumart Ritthichai, Khin Lay Kyu and Khanok Ratanakhanokchai, Thailand

**Poster Presentation Abstracts ..... 56-66**

### **Organic Agriculture Productions**

- PP-001 Management strategies and practices for preventing nutrient deficiencies in organic crop production**  
*S. S. Malhi*, S. A. Brandt, R. P. Zentner, J. D. Knight, K. S. Gill, T. S. Sahota and J. J. Schoenau, Canada
- PP-002 Field study on the effect of organic fertilizer on the height, root, and leaf of white cabbage (*Brassica oleracea* var. *capitata*) in comparison with chemical fertilizer**  
*Natdhera Sanmanee*, Kullanart Obsuwan and Kamolchanok Panishkan, Thailand
- PP-003 Effect of granular organic fertilizer on growth and yield of pak-choi and Phitsanulok 60-2 rice variety**  
*Krissana Boonsiri*, Dawrung Sugsang, Siri pirommi, Angcharee Seaang, Wirung Tong-ying, Jeerasak kontha and Apiwat Weejitjan, Thailand
- PP-004 Application of potassium humate in wheat for organic agriculture in Iran**  
*Reza Shahryari*, Aladdin Gadimov, Elshad Gurbanov and Mustafa Valizade, Iran
- PP-005 Fertilizer for organic sesame**  
*Pornparn Suddhiyam*, Siree Suwannaketnikom, Wimolrat Dumkhum and Nongnuch Duandao, Thailand
- PP-006 Performance of low input active aeration, turning pile and static pile for composting organic fertilizer**  
*Sayan Tanpanich*, Rewat Chindachia, Cholticha Niwasprakit and Montree Keawdoug, Thailand
- PP-007 Impact of long-term organic farming on the soil chemical fertility status**  
*Zulkefli Malik*, Aini Zakaria and Illani Zuraihah Ibrahim, Malaysia
- PP-008 The effectiveness of bacteria and fungi for organic liquid fertilizer production**  
*Tanuwat Larptansuphaphol* and Penja Jitjumroonchokchai, Thailand
- PP-009 Effect of compost, biofertilizer and bioextract of medicinal plant and saprophytic fungi for organic spinach production**  
*Wilairat Srinon* and Phattarawadee Boonanak, Thailand
- PP-010 Development of Bali Salak as an organic fruit**  
*I. M. Sukewijaya*, I. N. Rai, and M. S. Mahendra, Indonesia
- PP-011 Quality of local upland rice seed produced by organic farming system**  
*Raumjit Nokkoul* and Teerayut Wichitparp, Thailand

# Contents

Poster Presentation Abstracts ..... 67-80

## Organic Agriculture Productions

- PP-012 Evaluation of an on-farm organic growing media on the growth and development of pepper seedlings**  
*Ashariya Manenoi*, Wattachara Tamala, Amorn Tunsungnern, and Phimoon Amassa, Thailand
- PP-013 A simple on-farm experiment, to assist farmers in the selection-making process as they select products to enhance organic seed production**  
*Ashariya Manenoi* and Saowalak Phola, Thailand
- PP-014 Participatory learning for farmers to develop organic agricultural practices in Sisaket Province of Northeast Thailand**  
*Phassakon Nuntapanich*, Thailand
- PP-015 Evaluation of media, organic and chemical fertilizer applications on growth of pot gerbera (*Gerbera jamesonii*)**  
*Suwaree Saijeen*, Orapin Kaewman and Mookda Suksawat, Thailand
- PP-016 Growth and flowering of *Petunia* × *hybrida* ‘Dream Neon Rose’ on vermicompost media**  
*Esmaeil Chamani*, Daryl C. Joyce and Solmaz Fathalolomi, Iran
- PP-017 Integrated duck with organic rice-crop production system of some smallholder farmers in Chiang Mai province**  
*Jintana Indramangala*, Jirawut Rueanwong and Tawan Hangsoongneon, Thailand
- PP-018 The development of organic agriculture through rice-fish culture**  
*Noshin Osoli* and Kazem Taleshi, Iran
- PP-019 Replacement of soybean meal protein to fish meal diet in organic marine shrimp feed**  
Oraporn Meunpol, *Lila Ruangpan* and Somtavin Vallisut, Thailand
- PP-020 Pasta from organic Jasmine rice**  
*Nomjit Suteebut*, Kasarin Petcharat, Duangkamol Tungsathitporn and Duangrat Sae-tung, Thailand
- PP-021 Nata-De-Coco production from organic sugarcane juice**  
Narumon Phongsart, Maneeporn Prasanmit and *Thanaphop Soteyome*, Thailand

## Organic Crop & Environment Protections

- PP-022 Effect of acids and salts on the enzymatic browning inhibition in organic salad**  
*Aumaporn Arlai*, Thailand
- PP-023 Effect of hot water treatments on survival of *E. coli* and *Salmonella* spp. and physical properties in fresh-cut broccoli florets**  
*Phanida Renumarn*, Varit Srilaong, Apiradee Uthairatanakij, Sirichai Kanlayanarat and Pongphen Jitareerat, Thailand
- PP-024 Effect of organic coating agents on the quality of Tangerine (*Citrus reticulata*) cv. Sainampeung stored without using low temperature**  
*Maratree Plainsirichai*, Kannika Junsa and Alisa Radarit, Thailand
- PP-025 Employing Eco friendly potato disease management allows organic tropical Indian production systems to prosper**  
*Amitava Basu*, India

- PP-026 The introduction of Eco-enzyme to support organic farming in Indonesia**  
 Leo Wibisono, *Hanna Sutsuga*, Argya Syambarkah, Rizkita Ria and Vita Ayu, Indonesia
- PP-027 Selection of bacterium (*Rhizobium* Spp.) inoculated chickpea genotypes for residual P use effect on following wheat plants**  
*M. Rüştü Karaman*, Sezer Şahin, Oral Düzdemir and Necdet Kandemir, Turkey
- PP-028 Potential use of some fungi for biological control of root-knot nematode (*Meloidogyne incognita*)**  
 Mattana Wanitch, *Anan Hiransalee* and Weerasak Saksirirat, Thailand
- PP-029 Application of wood vinegar to fermented liquid bio-fertilizer for organic agriculture on soybean**  
*Udomporn Pangnakorn*, Surasak Watanasorn, Chumpon Khuntha and Sombat Chuenchooklin, Thailand
- PP-030 Organic pesticide from urine and spices modification**  
*Pitriyatin* and Novicha Sofriani, Indonesia
- PP-031 Regression analysis and orthogonal comparisons for determination of critical period for weeds control in sunflowers (*Helianthus annuus*) fields**  
*Amir Houshang Hosseinzadeh Moghbeli*, Bahram Mirshekari, Shahram Hanifan and Hossein Golipour, Iran
- PP-032 Climate change impacts in tropical agriculture and the potency of organic agriculture implementation to overcome climate change impacts**  
*Priyanka Prima Dewi*, Indonesia

#### Organic Markets & Policies

- PP-033 Consumer knowledge and perception of organic food: a challenge for consumer education on the benefits of going organic**  
*Nur Fathonah Sadek* and Yuananda Parama Oktarani, Indonesia
- PP-034 The three Q's of organics: 'soil Quality, water Quality' and 'food Quality and safety'**  
*Gina Villegas-Pangga*, Philippines
- PP-035 Traditional market: a niche market for integrated marketing and promotion of organic product**  
*Norma Yunita*, Ellen Paulina Hutagaol and Trifty Qurrota Aini, Indonesia
- PP-036 Consumer willingness to pay for organic foods in Turkey: Estimates using a probit model**  
 Z.G. Goktolga, Z. Bayramoglu, *O. Karkacier* and R. Karaman, Turkey
- PP-037 Survival or Growth: "Marketing strategies in the attention of Indian organic produce sector"**  
*Ramesh Mittal*, India
- PP-038 Role of post harvest technology and management in marketing of organic produce**  
*N.S. Ranawat*, India
- PP-039 A suitable public policy for organic farming in the north of Thailand**  
*Chedsada Mingchai* and Pradtana Yossuck, Thailand
- PP-040 Socio-economic condition, health status and farm environment of organic and chemical rice farmers of "Khao Dawk Mali 105" rice variety: A case study of Surin Province, Thailand**  
*Pisith Ruangpholwiwat*, Thailand

# Contents

Poster Presentation Abstracts ..... 96-107

## Organic Markets & Policies

**PP-041 Application of biotic fertilizers in rice culture: A strategy towards organic agriculture**

*Kazem Taleshi and Noshin Osoli, Iran*

## Supporting Sciences: Agriculture Production

**PP-042 Effects of irrigation water bicarbonate and media pH on tubers yield of potato**

*Aliakbar Shokouhian, Esmaeil Chamani, Behroz Esmaeilpour and Ali Asghari, Iran*

**PP-043 Improvement of sunflower (*Helianthus annuus* L.) hybrids at interference with redroot pigweed (*Amaranthus retroflexus* L.) for integrated weed management**

*Bahram Mirshekari, Farhad Farahvash, Aziz Javanshir, Alireza Tarinejad and Amir Houshang Hossein Zadeh Moghbeli, Iran*

**PP-044 Biology and management of rice weed flora in Iran**

*Mohammad Rezvani, Mostafaa Alinezhad and Faezeh Zaefarian, Iran*

**PP-045 Preliminary assessment of microbiological quality of raw buffalo milk commercially produced in Thailand**

*Wira Duangpan and Orasa Suriyaphan, Thailand*

## Supporting Sciences: Soil and Bio-fertilizer

**PP-046 Effectiveness of *Pichia* sp. CC1 in decreasing chemical fertilization requirements of garden lettuce in pot experiments**

*Phanit Nakayan, F. T Shen, M. H. Hung and Chiu-Chung Young, Taiwan*

**PP-047 Effect of manure and chemical fertilizer on solubility of phosphate of phosphorus in soils**

*Ratchaneeporn Suthiphasilp, Thailand*

**PP-048 Effect of salt-tolerant *Bacillus inoculum* on rice KDML 105 cultivated in saline soil**

*Sujunya Sapsirisopa, Kannika Chookietwattana, Kedsukon Maneewan and Phirayot Khaengkhan, Thailand*

## Supporting Sciences: Seed Sciences

**PP-049 Germination and primary growth of rapeseed, sesame and sunflower affected by seeds inoculation with nitragin biofertilizer**

*Bahram Mirshekari, Farhad Farahvash, Aziz Javanshir, Alireza Tarinejad and Amir Houshang Hossein Zadeh Moghbeli, Iran*

**PP-050 Using the single seed oxygen consumption measurement as a method of determination of different seed quality parameters for commercial tomato seed samples**

*Johan Van Asbrouck and Patcharin Taridno, Thailand*

**PP-051 The prediction of *Perilla frutescens* L. Britton seeds viability in the relation to storage temperature and duration**

*Somkid Pannorat, Maratree Plainsirichai and Pitipong Thobunluepop, Thailand*

**PP-052 Coriander (*Coriandrum sativum* L.) seed quality as affected by accelerated aging and subsequent hydropriming**

*Panumart Rithichai, Pattranuch Sampantharat and Yaowapha Jirakiattikul, Thailand*

**PP-053 Changes in amylase activity, reducing sugar, and free fatty acid of *Benencasa hispida* (Thunb.) Cogn. seed during germination**  
*D. Loyma, S. Photchanachai and P. Ritthichai, Thailand*

**PP-054 Nutritional composition of sugar palm seed (*Arenga westerhoutii*) in Thailand**  
*Phunsiri Suthiluk, Theerapong Theepakorn and Anucha Chantaraboon, Thailand*

### Supporting Sciences: Pest and Disease Control

**PP-055 Effects of antagonistic microorganisms on seedling growth and dirty panicle pathogens of rice**  
*Chiradej Chamswarnng, Chitisak Watcharaburapanan and Phraomas Charoenrak, Thailand*

**PP-056 Efficacy of antagonistic microorganisms from bamboo leaf compost and liquid fermented bioextract for the control of dirty panicle of rice caused by *Curvularia lunata***  
*Chiradej Chamswarnng and Nattakarn Amnuaychitilert, Thailand*

**PP-057 *Bacillus megaterium* suppresses major Thailand rice diseases**  
*Mana Kanjanamaneesathian, Amornrat Chumthong, Ashara Pengnoo and Ruedeekorn Wiwattanapatapee, Thailand*

**PP-058 Efficacy of indigenous microorganisms for the control of rice sheath rot disease caused by *Sarocladium oryzae***  
*Supalak Sattasakulchai, Warin Intana, Chiradej Chamswarnng, Montree Issarakraisila and Somsak Maneepong, Thailand*

**PP-059 The potential of Endophytic Actinomycetes (*Streptomyces* sp.) for biocontrol of powdery mildew in sweet pea (*Pisum sativum*)**  
*Podjane Sangmanee, Ampan Bhromsiri and Angsana Akarapisan, Thailand*

**PP-060 *Bacillus licheniformis* and its antifungal metabolite provide high levels of control of durian (*Durio zibethinus*) root rot disease (*Phytophthora palmivora* L.)**  
*Warin Intana, Supalak Sattasakulchai, Chaiyawat Suwanno, Punnawichth Yenjit and Chiradej Chamswarnng, Thailand*

**PP-061 Antibacterial action of eri (*Samia ricini*) sericin against *Escherichia coli* and *Staphylococcus aureus***  
*Waraluk Senakoon, Suporn Nuchadomrong, Sivilai Sirimungkararat, Thanaset Senawong and Pravina Kitikoon, Thailand*

**PP-062 Induce systemic resistance of biocontrol fungus, *Trichoderma* spp. against bacterial and gray leaf spot in tomatoes**  
*Weerasak Saksirirat, Punyisa Chareerak and Wandee Bunyatrachata, Thailand*

**PP-063 Pathogenicity of *Metarhizium anisopliae* Northeastern isolate on mosquitoes and its chitinase gene cloning**  
*Sivilai Sirimungkararat, Anchalee Natongkham, Ittidate Piriyaniti, Hathairat Urairong, Benjamat Kaewrat and Weerasak saksirirat, Thailand*

**PP-064 Yeast metabolites inhibit banana anthracnose fungus *Colletotrichum musae***  
*Veeranee Tongsrri and Somsiri Sangchote, Thailand*

**PP-065 Yeasts show ability to control gray mould (*Botrytis cinerea*)**  
*Sirirat Siripornvisal, Wimolpun Rungprom and Sanit Sawatdikarn, Thailand*

**PP-066 Antifungal activity of essential oils derived from some medicinal plants against gray mould (*Botrytis cinerea*)**  
*Sirirat Siripornvisal, Wimolpun Rungprom and Sanit S awatdikarn, Thailand*

# Contents

- Poster Presentation Abstracts ..... 122-134
- Supporting Sciences: Pest and Disease Control**
- PP-067 Screening for the antifungal activity of essential oils from oil (*Citrus hystrix* DC.) and tea tree oil (*Melaleuca alternifolia*) against economically rice pathogenic fungi: A driving force of organic rice cv. KDML 105 production**  
*Pitipong Thobunluepop, Jularat Udomsilp, Apinya Piyo, and Phirayot Khaengkhan, Thailand*
- PP-068 The antifungal property of essential oils from Thai medical plants against economically rice pathogenic fungi**  
*Jularat Udomsilp, Apinya Piyo, Phirayot Khaengkhan and Pitipong Thobunluepop, Thailand*
- PP-069 The antifungal activity of essential oils from Basil oil (*Ocimum basilicum* Linn) and Fennel sweet (*Ocimum gratissimum* Linn): An alternative strategies to control economically pathogenic fungi in organic rice cv. KDML 105 production**  
*Pitipong Thobunluepop, Jularat Udomsilp, Apinya Piyo, and Phirayot Khaengkhan, Thailand*
- PP-070 Plucao (*Houttuynia cordata*) Thunb. and Sabsua (*Eupatoriumodoratum* L.) extracts influence *Colletotrichum capsici* and *Fusarium oxysporum***  
*Sontaya Puttawong and Sasitorn Worngrong, Thailand*
- PP-071 Effect of soap pod and tobacco on inhibition of *Colletotrichum capsici***  
*Panupon changkasiri and Sasitorn Worngrong, Thailand*
- PP-072 Efficacy of plant extract for controlling anthracnose disease on chili caused by *Colletotrichum capsici***  
*Chaiyawat Suwanno, Warin Intana, Supalak Sattasakulchai, Punnawich Yenjit and Chiradej Chamswarnng, Thailand*
- PP-073 Efficiency of extracts from indigenous herbs of Northeastern Thailand in controlling the tobacco cutworm *Spodoptera litula* (F.)**  
*Saroj Charoensak, Jarongsak Pumnuan and Ammorn Insung, Thailand*
- PP-074 Toxicity and repellent effect of *Lantana camara* crude extract on *Polyphagotarsonemus latus* and *Tetranychus urticae***  
*Watcharin Srimongkolchai, Patchanee Vichitbandha, Thitiya Pung and Angsumarn Chandrapatya, Thailand*
- PP-075 Antibacterial activity and phytochemical screening of *Chrysophyllum albidum* leaves**  
*Duyilemi O.P and Lawal I.O., Nigeria*
- PP-076 Biological active substances for the control of plant pathogenic fungi**  
*Prasart Phonimdaeng, Thailand*
- PP-077 Biological control of *Orobanche aegyptiaca* in tomato**  
*M. Haj Seyed Hadi, M. T. Darzi and F. Fazeli, Iran*
- PP-078 Populations of sucking insect pests and their predators on chili ecosystem**  
*J.M. Mari and M.K. Lohar, Pakistan*
- PP-079 Four Downy mildew pathotypes are present on Cucumbers in the northern region of Thailand**  
*Piyavadee Charoenwattana, Thailand*

**Supporting Sciences: Postharvest and Handling**

- PP-080 Fast field drying as a method to maintain quality, increase shelf life and prevent post harvest infections on *Cucumis sativum* L.**  
*Johan Van Asbrouck and Patcharin Taridno, Thailand*
- PP-081 The postharvest antifungal activity of extracts and compounds of *Cinnamomum zeylanicum*, *Boesenbergia pandurata* and *Syzygium aromaticum* against *Colletotrichum gloeosporioides* and *Botryodiplodia theobromae***  
*Netnapis Khewkhom and Somsiri Shangchote, Thailand*
- PP-082 Antimicrobial activity of pomelo albedo tissues against postharvest fungal pathogens in vitro**  
*Matchima Naradisorn and Thanai Saiphet, Thailand*
- PP-083 Chitosan as alternative biopesticide for postharvest plants**  
*Siti Devi Yanti, Prima Triwahyu Nugroho, Riska Aprisa, Erik Mulyana, Indonesia*
- PP-084 Storage life and quality of 'organic' mango (*Mangifera indica* L) cv. Gedong extended by chitosan and emulsifier treatment**  
*Setyadjit, Suyanti, A. N. Alam Syah and Wisnu Broto, Indonesia*
- PP-085 Application of edible whey protein film containing-tocopherol and ascorbyl palmitate in coating of peanuts in Indonesia**  
*Sarah Tsaqqofa, Nadiah, Septiana Iswani, Ratih Kumala Dewi, Huda Firmansyah and Ilham Muzaki, Indonesia*
- PP-086 Eco-innovative package design for fresh vegetable export: Case study of bell peppers from the Royal Project**  
*Siriwan Tungsangprateep, Bussakorn Praditniyakul and Weeraya Phuaksawat, Thailand*

**Supporting Sciences: Food Sciences**

- PP-087 Bioactive compounds and antioxidant capacities of Phu-lae and Nang-lae pineapple**  
*Ampa Kongsuwan, Phunsiri Suthiluk, Threerapong Theppakorn, Varit Srilaong and Sutthiwal SETHA, Thailand*
- PP-088 Safety level of Tangchay currently available on the market and development of Tangchay production from cabbage for enhancement of quality and safety**  
*Jiraporn Raiputta and Phunsiri Suthiluk, Thailand*
- PP-089 Inhibitory effect of commercial Assam green tea infusion in watermelon juice**  
*R.A. Kristanti and N. Punbusayakul, Indonesia*
- PP-090 Development of crystallized palm-syrup sugar as a natural sweetener**  
*Sajee Suwansri, Puntarika Ratanatriwong and Parita Thanasukarn, Thailand*

**Supporting Sciences: Motivating Sciences**

- PP-091 Cytogenetical study of Chaman Shour Saheli (*Aeluropus littoralis* (Gouan) Parl)**  
*Varahram Rashidi, Mahyar Yousefzadeh, Ahmad Razban Haghghi and Hamideh Javadi, Iran*
- PP-092 Properties of some organic materials for agar substitution in plant tissue culture medium**  
*Chockpisit Thepsithar, Aree Thongpukdee and Niphan Ratchapol Srathongjai, Thailand*
- PP-093 In vitro propagation of Ceylon spinach (*Basella rubra* L.)**  
*Tanikan Pumchaosuan and Sasitorn Wongroung, Thailand*

# Contents

Poster Presentation Abstracts..... 149-153

## Supporting Sciences: Motivating Sciences

- PP-094 Organic *Pueraria mirifica* tuber: Its potent estrogenic potency and its effects on some organs and vaginal histology of aged female mice**  
*Yuthana Smitasiri, Tanuchai Smitasiri, Supot Boonraeng, Supachai Sritiwong and Wasan Manoruang, Thailand*
- PP-095 Effectiveness of medical plant essential oils on pregnant female of *Luciaphorus perniciosus* Rack (Acari: Pygmephoridae)**  
*Jarongsak Pumnuan, Ammorn Insung and Pikanes Rongpol, Thailand*
- PP-096 The reduction of mimosine and tannin contents in leaves of *Leucaena leucocephala***  
*Nuttaporn Chanchay and Naiyat Poosaran, Thailand*
- PP-097 Purification and characterization of a secondary metabolite from symbiotic bacteria of entomopathogenic nematodes and its efficacy against mushroom mites (*Luciaphorus* sp.)**  
*Siriphan Sobanboa, Prapassorn Bussaman and Angsumarn Chandrapatya, Thailand*
- PP-098 Efficacy of *Xenorhabdus* sp. (X1) mutant on mushroom mite (*Luciaphorus* sp.)**  
*Piyarat Namsena, Propassorn Bussaman and Angsumarn Chandrapatya, Thailand*

List of Presenters.....155
