

CONTENTS

1 The Structure of Benzene	1
2 Benzene and Its Homologues; the Substitution Reactions of Benzene	12
3 Disubstitution in Benzenoid Compounds	28
4 The Addition Reactions of the Benzene Nucleus	53
5 Aromaticity	60
6 Aromatic Halides	70
7 Aromatic Nitro-compounds	81
8 Aromatic Amines	90
9 Phenols and Alcohols	113
10 Aromatic Carbonyl Compounds	139
11 Aromatic Acids	156
12 Naphthalene	171
13 Introduction to the Chemistry of Anthracene, Phenanthrene, and Polycyclic Aromatic hydrocarbons	186
Subject Index	203
Named Reaction Index	207
