

CONTENTS

Chapter I Theory of General Technique	1
Chapter II Experimental Technique	46
Chapter III Preparation and Reactions of Aliphatic Compounds	229
Chapter IV Preparation and Reactions of Aromatic Compounds	508
Chapter V Some Heterocyclic and Alicyclic Compounds	829
Chapter VI Miscellaneous Reactions	861
Chapter VII Organic Reagents in Inorganic and Organic Chemistry	953
Chapter VIII Dyestuffs, Indicators and Related Compounds	979
Chapter IX Some Physiologically Active Compounds	996
Chapter X Synthetic Polymers	1014
Chapter XI Qualitative Organic Analysis	1026
Chapter XII Semimicro Technique	1101
Appendix Literature of Organic Chemistry	1115
Index	1165
