

CONTENTS

Chapter 1 Linear Transformations	1
Chapter 2 Tensors	9
Chapter 3 Matrices	17
Chapter 4 Groups	26
Chapter 5 Crystallographic Groups	35
Chapter 6 Symmetry and Physical Properties	65
Chapter 7 Group Theoretical Method	82
Chapter 8 Classification of Physical Properties	100
Chapter 9 Strain	109
Chapter 10 Stress	118
Chapter 11 Elasticity	124
Chapter 12 Large Stresses and Strains	140
Chapter 13 Thermal Expansion	154
Chapter 14 Electrical Properties	157
Chapter 15 Magnetic Properties	164
Chapter 16 Optical Properties	181
Chapter 17 Transport Phenomena	191
Chapter 18 Single Crystal Illustrations	210
Appendix	223
Subject Index	227
