

CONTENTS

1 Introduction	3
2 Major Features of the Earth	24
3 Plate Tectonics	40
4 Physical and Chemical Properties of Seawater	57
5 Circulation Systems of the World	73
6 Waves	92
7 Tides	105
8 The Marine Biological Environment	117
9 Life in the Sea	128
10 Marine Geology and Geophysics	164
11 Estuaries and Related Environments	183
12 Deltas	209
13 Barrier Island Complexes	224
14 Rocky Coasts	259
15 Reefs	281
16 Continental Shelf	304
17 Outer Continental Margin	324
18 The Pelagic Environment	338
19 The Floor of the Ocean Basins	355
20 Resources of the Sea	377
21 Impact of Humans on the Marine Environment	393
Appendix A	411
Organisms	413
Glossary	415
Credits	423
Index	427
