

CONTENTS

Chapter One Introduction	1
Chapter Two Formation and Properties of limestone	5
Chapter Three Limestone Exploration and Extraction	34
Chapter Four Limestone Processing	55
Chapter Five Limestone Uses	75
Chapter Six Theory of Calcination	132
Chapter Seven Definitions and Properties of Limes	165
Chapter Eight Lime Manufacture	201
Chapter Nine Theory of Lime Hydration	287
Chapter Ten Methods of hydration	322
Chapter Eleven Uses of Lime	344
Chapter Twelve Economic Factors of Lime and Limestone	430
Chapter Thirteen Analytical Testing of Limestone and Lime	459
Appendix A	500
Appendix B	504
Appendix C	506
Appendix D	508
Index	509
