

CONTENTS

A. Introduction	1
B. The Stability Conditions of Salt Minerals	27
I. System CaSO ₄ -H ₂ O (\pm NaCl, etc.)	32
II. System NaCl-KCl-MgCl ₂ -H ₂ O	40
III. System NaCl-KCl-Na ₂ SO ₄ -H ₂ O	54
IV. System NaCl-Na ₂ SO ₄ -MgCl ₂ -H ₂ O	58
V. The Five-Component System NaCl-KCl-MgCl ₂ -Na ₂ SO ₄ -H ₂ O	64
VI. The Five-Component System with Ca and Fe Salts	76
C. Physico-chemical Models	84
I. Primary Precipitation	84
II. Thermal Metamorphism	108
III. Solution Metamorphism	118
IV. Dynamic Metamorphism	129
V. The Behaviour of Minor Components	130
D. Natural Salt Sequences and Physico-chemical Models	153
I. The Main Components	153
II. Minor Components	195
E. Other Components of Salt Deposits	215
F. Geological Conclusions and Problems	246
G. Review	268
References	273
Author and Subject Index	289
