

CONTENT

1. Some pertinent Aspects of Organic Chemistry	1
2. Proteins, Amino Acids, and Peptides	14
3. Carbohydrates	43
4. Lipids	63
5. Nucleic Acids and Nucleotides	79
6. The Enzymes	92
7. Introduction to Metabolism	119
8. Energy Transfer Process	133
9. Metabolism of Carbohydrates	158
10. Metabolism of Lipids	196
11. Metabolism of Nitrogen Compounds	218
12. Protein Synthesis and Gene Action	249
13. The Control of Metabolic Activities	263
14. Special Biochemistry of Higher Organisms	276
Index	305
