

CONTENT

1. Phosphoryl Group Transfer (Survey)	3
2. Hexokinases and Pentokinases	47
3. Phosphohexokinases	67
4. Triokinases	75
5. 3-Phosphoglycerate Kinase	85
6. Pyruvate Kinase	95
7. Acetate Kinase	115
8. Protein Kinases	119
9. Nucleoside Kinases	133
10. Nucleoside Triphosphate-Nucleoside Monophosphokinases	139
11. Nucleoside Diphosphokinases	151
12. Phosphoglucomutase	161
13. Phosphoglycerate Mutase	179
14. Amino Group Transfer (Survey)	193
15. Glutamic-Oxalacetate Transaminase	219
16. Amide Nitrogen Transfer (Survey)	247
17. Transamidination	267
18. Glycosidic Bond Exchange (Survey)	277
19. UDPG-Glycogen Transglucosylase	317
20. Carbamyl Group Transfer	327
21. Acyl Group Transfer	339
22. Sulfate Transfer	363
23. Acyl Activation	373
24. Succinyl CoA Synthetase	387
25. Amino Acid Activation	401
26. Firefly Luciferase	433
27. Glutamine Synthesis	443
28. Synthesis of Sulfuryl Adenylates	469
29. Carbamyl Group Synthesis	477
30. Nitrogen Transfer from Aspartic Acid In the Formation of Amide, Amidine, and Guanidino Groups	495
31. Atp-Creatine Transphosphorylase	515
Author Index	605
