PART ONE General features of inland waters	1
Chapter 1 Chemical features	1
Chapter 2 Biological production	24
PART TWO Lakes	48
Chapter 3 Preliminary considerations	49
Chapter 4 Productivity	66
Chapter 5 Physical and related chemical and biological phenomena	78
Chapter 6 Ecology of the major biological communities	97
PART THREE Running waters	134
Chapter 7 Non-biological features	135
Chapter 8 Biological features	151
PART FOUR Other bodies of fresh water	170
Chapter 9 Other bodies of fresh water	171
PART FIVE Non-marine or athalassic saline waters	192
Chapter 10 Non-marine or athalassic saline waters	193
PART SIX Man and inland waters	214
Chapter 11 Uses of inland waters	215
Chapter 12 The effects of man on inland waters	232
Bibliography	261
Index of lakes and reservoirs	284
Index of organisms	289
General index	296
Postscript	315
