

CONTENTS

Safety in the Microbiological Laboratory: An Introduction	1
The Use of Safety Cabinets for the Prevention of Laboratory Acquired Infection	21
Aerosol Sampling	37
Laminar Flow as Applied to Bacteriology	49
The management of Laboratory Discard jars	53
Notes on Hot Air Sterilization	61
The Routine Control of Contamination in a Culture Collection	73
Sterility Testing and Assurance in the Pharmaceutical Industry	89
The Isolation and Identification of Bacteria and Mycoplasma Pathogenic to Laboratory Animals	103
The Production of Disease Free Embryos and Chicks	121
Methods of Handling and Testing Starter Cultures	133
Actinomycete and Fungus Spores in Air as Respiratory Allergens	151
Carcinogenic Hazards in the Microbiology Laboratory	185
Safety in the Use of Radioactive Isotopes	191
Preservation of Fungal Cultures and the Control of Mycophagous Mites	213
The Disinfection of Heat Sensitive Surgical Instruments	229
Author Index	239
Subject Index	245
