<b>EDITORIAL COMMITTEE .....</b>	<b>III</b>
<b>AUTHORS AND CONTRIBUTORS .....</b>	<b>v</b>
<b>PREFACE .....</b>	<b>xxxix</b>

### **GENERAL LABORATORY PROCEDURES**

<b>Chapter 1      Laboratory Quality Assurance .....</b>	<b>1</b>
1.1      Introduction .....	1
1.2      Management's Role in Laboratory Quality Assurance .....	2
1.3      General Laboratory Operations .....	3
1.4      Personnel .....	5
1.5      Facilities .....	7
1.6      Equipment and Instrumentation .....	10
1.7      Laboratory Glassware and Plasticware .....	14
1.8      Media and Reagents .....	15
1.9      Record Keeping .....	19
1.10      References .....	22
<b>Chapter 2      Sampling Plans. Sample Collection. Shipment. and                   Preparation for Analysis .....</b>	<b>25</b>
2.1      Introduction .....	25
2.2      General Considerations .....	25
2.3      Equipment, Materials, and Reagents .....	26
2.4      Precautions .....	27
2.5      Procedures .....	28
2.6      References .....	48
<b>Chapter 3      Microbiological Monitoring of the Food Processing                   Environment .....</b>	<b>51</b>
3.1      Introduction .....	51
3.2      Environmental Sampling Strategies .....	52
3.3      Sampling of Surfaces—Equipment and Physical Plant ..	54
3.4      Rinse Solution Method for Sampling Processing Equipment Systems .....	55
3.5      Surface Contact Methods .....	57
3.6      Microbiological Air-Sampling Strategies .....	62

		Page	
	3.7	Air-Sampling Methods .....	63
	3.8	Aerosol Sampling and Measurement Guidelines .....	71
	3.9	References .....	72
<b>Chapter</b>	<b>4</b>	<b>Colony Count Methods .....</b>	<b>75</b>
	4.1	Introduction .....	75
	4.2	General Considerations .....	76
	4.3	Equipment, Materials, and Reagents .....	76
	4.4	Precautions and Limitations .....	78
	4.5	Procedures .....	79
	4.6	Interpretation .....	94
	4.7	References .....	94
<b>Chapter</b>	<b>5</b>	<b>Direct Microscopic Count .....</b>	<b>97</b>
	5.1	Introduction .....	97
	5.2	Counting Chambers for Bacteria .....	97
	5.3	Howard Mold Count .....	98
	5.4	<i>Geotrichum</i> Count .....	99
	5.5	Dried Films .....	101
	5.6	Fluorescence Microscopy .....	102
	5.7	References .....	103
<b>Chapter</b>	<b>6</b>	<b>The Most Probable Number Technique .....</b>	<b>105</b>
	6.1	Introduction .....	105
	6.2	General Considerations .....	106
	6.3	Precautions .....	107
	6.4	Procedures .....	108
	6.5	Interpretations .....	110
	6.6	Approximate MPN and 95% Confidence Limits .....	117
	6.7	References .....	119
<b>Chapter</b>	<b>7</b>	<b>Repair and Detection of Injured Microorganisms .....</b>	<b>121</b>
	7.1	Introduction .....	121
	7.2	General Considerations .....	125
	7.3	Procedures, Problems, and Precautions .....	126
	7.4	Interpretation .....	131
	7.5	References .....	132
<b>SPECIAL PROCEDURE</b>			
<b>Chapter</b>	<b>8</b>	<b>Measurement of Water Activity (<i>A</i>) and Acidity .....</b>	<b>135</b>
	8.1	Measurement of <i>A</i> .....	135
	8.2	Equipment .....	139
	8.3	Calibration .....	142
	8.4	Measurement of Samples .....	144

		Page
8.5	Precautions and Limitations .....	145
8.6	Measurement of Acidity .....	146
8.7	pH Measurements .....	147
8.8	pH Paper Measurements .....	150
8.9	Titratable Acidity .....	150
8.10	References .....	150
<b>MICROORGANISMS INVOLVED IN PROCESSING AND SPOILAGE OF FOODS</b>		
<b>Chapter 9</b>	<b>Psychrotrophic Microorganisms .....</b>	<b>153</b>
9.1	Introduction .....	153
9.2	Review of Methods Used to Enumerate Psychrotrophs in Foods .....	156
9.3	General Recommendations .....	158
9.4	Sample Preparation .....	159
9.5	Equipment, Media, Materials, and Reagents .....	159
9.6	Precautions .....	160
9.7	Rapid Detection .....	160
9.8	Procedures for Enumeration of Psychrotrophs .....	163
9.9	Interpretation .....	163
9.10	References .....	164
<b>Chapter 10</b>	<b>Thermoduric Microorganisms and Heat Resistance Measurements .....</b>	<b>169</b>
10.1	Introduction .....	169
10.2	General Considerations for Analytical Sampling, Heating, and Detection .....	171
10.3	Equipment, Materials, and Procedures .....	173
10.4	Interpretation .....	178
10.5	References .....	178
<b>Chapter 11</b>	<b>Lipolytic Microorganisms .....</b>	<b>183</b>
11.1	Introduction .....	183
11.2	General Considerations .....	186
11.3	Equipment, Materials, and Reagents .....	186
11.4	Procedures .....	187
11.5	Precautions .....	188
11.6	References .....	190
<b>Chapter 12</b>	<b>Proteolytic Microorganisms .....</b>	<b>193</b>
12.1	Introduction .....	193
12.2	General Considerations .....	195

		Page
	12.3      Equipment. Materials. and Reagents .....	195
	12.4      Procedures .....	195
	12.5      Precautions .....	197
	12.6      Interpretation .....	197
	12.7      References .....	198
<b>Chapter</b>	<b>13      Halophilic and Osmophilic Microorganisms .....</b>	<b>199</b>
	13.1      Introduction .....	199
	13.2      Halophilic Microorganisms .....	200
	13.3      Osmophilic Microorganisms .....	207
	13.4      References .....	210
<b>Chapter</b>	<b>14      Pectinolytic and Pectolytic Microorganisms .....</b>	<b>213</b>
	14.1      Introduction .....	213
	14.2      Detecting Pectinolytic and Pectolytic Organisms .....	214
	14.3      Visualization and Assay of Pectic Enzymes .....	217
	14.4      Sources of Pectic Enzymes .....	219
	14.5      Equipment. Materials. and Reagents .....	219
	14.6      Procedures .....	219
	14.7      Interpretation .....	220
	14.8      References .....	220
<b>Chapter</b>	<b>15      Acid-Producing Microorganisms .....</b>	<b>225</b>
	15.1      Introduction .....	225
	15.2      General Considerations .....	226
	15.3      Equipment. Materials. and Reagents .....	227
	15.4      Procedures .....	228
	15.5      References .....	236
<b>Chapter</b>	<b>16      Yeasts and Molds .....</b>	<b>239</b>
	16.1      Introduction .....	239
	16.2      General Considerations .....	240
	16.3      Precautions .....	241
	16.4      Equipment. Materials. and Reagents .....	242
	16.5      Procedures .....	242
	16.6      Interpretation .....	242
	16.7      New Methods Under Development .....	243
	16.8      References .....	245
<b>Chapter</b>	<b>17      Detection and Enumeration of Heat-Resistant Molds ..</b>	<b>251</b>
	17.1      Introduction .....	251
	17.2      General Considerations .....	253

		Page
	17.3      Equipment, Materials, and Reagents .....	253
	17.4      Procedures .....	254
	17.5      Precautions .....	255
	17.6      Interpretation .....	255
	17.7      Taxonomy of Important Heat-Resistant Fungi .....	256
	17.8      References .....	261
<b>Chapter</b>	<b>18      Mesophilic Aerobic Sporeformers .....</b>	<b>265</b>
	18.1      Introduction .....	265
	18.2      Special Considerations .....	268
	18.3      Sources of Error .....	268
	18.4      Equipment, Materials, and Media .....	269
	18.5      Procedures .....	269
	18.6      Modifications .....	272
	18.7      Interpretation .....	272
	18.8      References .....	274
<b>Chapter</b>	<b>19      Mesophilic Anaerobic Sporeformers .....</b>	<b>275</b>
	19.1      Introduction .....	275
	19.2      General Considerations .....	279
	19.3      Equipment, Materials, and Solutions .....	280
	19.4      Precautions .....	281
	19.5      Procedures .....	281
	19.6      Interpretation of Results .....	287
	19.7      References .....	287
<b>Chapter</b>	<b>20      Aciduric Flat Sour Sporeformers .....</b>	<b>291</b>
	20.1      Introduction .....	291
	20.2      General Considerations .....	292
	20.3      Equipment, Materials, and Reagents .....	293
	20.4      Procedure .....	294
	20.5      Precautions and Limitations of the Procedure .....	296
	20.6      Interpretation .....	296
	20.7      References .....	297
<b>Chapter</b>	<b>21      Thermophilic Flat Sour Sporeformers .....</b>	<b>299</b>
	21.1      Introduction .....	299
	21.2      General Considerations .....	300
	21.3      Equipment, Materials, and Reagents .....	301
	21.4      Precautions .....	302
	21.5      Procedure .....	302

		Page	
	21.6	Interpretation of Results .....	305
	21.7	References .....	306
<b>Chapter</b>	<b>22</b>	<b>Thermophilic Anaerobic Sporeformers .....</b>	<b>309</b>
	22.1	Introduction .....	309
	22.2	General Considerations .....	310
	22.3	Equipment, Materials. and Solutions .....	310
	22.4	Precautions .....	311
	22.5	Procedure .....	311
	22.6	Interpretation .....	314
	22.7	References .....	316
<b>Chapter</b>	<b>23</b>	<b>Sulfide Spoilage Sporeformers .....</b>	<b>317</b>
	23.1	Introduction .....	317
	23.2	General Considerations .....	318
	23.3	Equipment, Materials. and Reagents .....	319
	23.4	Precautions and Limitations of Procedure .....	320
	23.5	Procedure .....	320
	23.6	Interpretation .....	322
	23.7	References .....	322
<b>INDICATOR MICROORGANISMS AND PATHOGENS</b>			
<b>Chapter</b>	<b>24</b>	<b>Coliforms—<i>Escherichia Coli</i> and its Toxins .....</b>	<b>325</b>
	24.1	Introduction .....	325
	24.2	Definitions .....	326
	24.3	Precautions .....	329
	24.4	Equipment, Materials. and Reagents .....	330
	24.5	Coliform Group .....	336
	24.6	Fecal Coliform Group .....	340
	24.7	<i>Escherichia Coli</i> .....	341
	24.8	Interpretation .....	344
	24.9	Enteropathogenic <i>E. Coli</i> (EEC) .....	345
	24.100	Pathogenicity Tests .....	350
	24.11	References .....	367
<b>Chapter</b>	<b>25</b>	<b><i>Salmonella</i> .....</b>	<b>371</b>
	25.1	General Basis of Methods .....	371
	25.2	Treatment of Sample .....	388
	25.3	Equipment and Supplies .....	388
	25.4	Precautions and Limitations of Reference and Rapid Methods .....	392
	25.5	Reference Method .....	396
	25.6	Interpretation of Data—Reference Method .....	405

		Page
25.7	Rapid Screening Tests .....	405
25.8	References .....	415
<b>Chapter</b>	<b>26</b>	<b><i>Shigella</i> .....</b>
26.1	Introduction .....	423
26.2	Recommended Procedures .....	426
26.3	Precautions and Limitations of the Method .....	430
26.4	References .....	430
<b>Chapter</b>	<b>27</b>	<b><i>Yersinia</i> .....</b>
27.1	Introduction .....	433
27.2	General Considerations .....	437
27.3	Equipment. Materials. and Reagents .....	438
27.4	Safety Precautions .....	440
27.5	Procedures .....	441
27.6	Interpretation .....	448
27.7	References .....	448
<b>Chapter</b>	<b>28</b>	<b><i>Vibrio</i> .....</b>
28.1	Introduction .....	451
28.2	General Considerations .....	454
28.3	Equipment. Materials. and Reagents .....	455
28.4	Precautions .....	455
28.5	Procedures .....	456
28.6	Interpretation .....	467
28.7	References .....	469
<b>Chapter</b>	<b>29</b>	<b><i>Campylobacter</i> .....</b>
29.1	Introduction .....	475
29.2	General Considerations .....	477
29.3	Media and Reagents .....	478
29.4	Procedures .....	480
29.5	Identification Tests .....	484
29.6	Interpretation .....	489
29.7	References .....	489
<b>Chapter</b>	<b>30</b>	<b><i>Aeromonas Hydrophila Group</i> .....</b>
30.1	Introduction .....	497
30.2	General Considerations .....	506
30.3	Equipment. Materials. and Reagents .....	506
30.4	Procedures .....	507
30.5	Interpretations .....	508
30.6	References .....	509

<b>Chapter</b>	<b>31</b>	<b><i>Plesiomonas Shigelloides</i> .....</b>	<b>517</b>
31.1	Introduction .....	517	
31.2	Equipment, Materials, and Solutions .....	520	
31.3	Procedure .....	520	
31.4	References .....	521	
<b>Chapter</b>	<b>32</b>	<b><i>Enterococci</i> .....</b>	<b>523</b>
32.1	Introduction .....	523	
32.2	General Considerations .....	525	
32.3	Equipment, Materials, and Reagents .....	526	
32.4	Precautions .....	527	
32.5	Enumeration of Enterococci .....	527	
32.6	Confirmation of Enterococci .....	528	
32.7	References .....	529	
<b>Chapter</b>	<b>33</b>	<b><i>Staphylococcus Aureus</i> .....</b>	<b>533</b>
33.1	Introduction .....	533	
33.2	General Considerations .....	535	
33.3	Precautions and Limitations of Methods .....	538	
33.4	Equipment, Reagents, and Media .....	540	
33.5	Procedures .....	541	
33.6	Additional Tests .....	545	
33.7	Thermonuclease Assay .....	546	
33.8	References .....	547	
<b>Chapter</b>	<b>34</b>	<b><i>Staphylococcal Enterotoxins</i> .....</b>	<b>551</b>
34.1	Introduction .....	551	
34.2	Treatment of Samples .....	554	
34.3	Enterotoxin Production by Staphylococcal Isolates .....	554	
34.4	Enterotoxin Identification of Foods .....	577	
34.5	References .....	590	
<b>Chapter</b>	<b>35</b>	<b><i>Bacillus Cereus</i> .....</b>	<b>593</b>
35.1	Introduction .....	593	
35.2	Procedure .....	598	
35.3	Interpretation of Data .....	603	
35.4	References .....	603	
<b>Chapter</b>	<b>36</b>	<b><i>Clostridium Botulinum and its Toxins</i> .....</b>	<b>605</b>
36.1	Introduction .....	605	
36.2	Treatment of Specimens .....	608	
36.3	Special Equipment and Supplies .....	609	

		Page	
36.4	Media and Reagents .....	610	
36.5	Precautions and Limitations of Methods .....	610	
36.6	Procedure for Identifying Viable <i>C. Botulinum</i> .....	611	
36.7	Identifying Botulinal Toxin in Foods .....	614	
36.8	Identifying Botulinal Toxin in Clinical Specimens .....	616	
36.9	Interpreting Data .....	619	
36.10	References .....	620	
<b>Chapter</b>	<b>37</b>	<b><i>Clostridium Perfringens</i></b> .....	<b>623</b>
37.1	Introduction .....	623	
37.2	Sampling .....	625	
37.3	Equipment and Supplies .....	626	
37.4	Special Reagents and Media (Chapter 62) .....	627	
37.5	Recommended Controls .....	627	
37.6	Precautions and Limitation of Methods .....	627	
37.7	Procedure .....	628	
37.8	Interpretation of Data .....	633	
37.9	References .....	633	
<b>Chapter</b>	<b>38</b>	<b><i>Listeria</i></b> .....	<b>637</b>
38.1	Introduction .....	637	
38.2	General Considerations .....	641	
38.3	Media, Reagents, and Equipment .....	643	
38.4	Precautions and Limitations of the Methods .....	646	
38.5	Procedures .....	646	
38.6	Interpretation of Data .....	657	
38.7	References .....	658	
<b>RAPID METHODS</b>			
<b>Chapter</b>	<b>39</b>	<b>Rapid Methods and Automation</b> .....	<b>665</b>
39.1	Introduction .....	665	
39.2	Immunoassays .....	666	
39.3	Hybridization .....	676	
39.4	Impedimetric Assays .....	688	
39.5	Luminescent and Fluorescent Assays .....	694	
39.6	Hydrophobic Grid Membrane Filter Methods .....	699	
39.7	Minikits .....	709	
39.8	Replicator Methods .....	717	
39.9	Automation .....	725	
39.10	List of Manufacturers .....	743	

**FOOD SAFETY: FOODBORNE ILLNESS**

<b>Chapter</b>	<b>40</b>	<b>Investigation of Foodborne Illness Outbreaks .....</b>	<b>747</b>
40.1	Introduction .....	747	
40.2	Purpose of Investigation .....	748	
40.3	Theory of Investigation .....	748	
40.4	Consideration of Samples .....	749	
40.5	Equipment, Materials. and Solutions .....	750	
40.6	Investigative Procedures .....	751	
40.7	Analysis and Conclusion .....	758	
40.8	Reports .....	760	
40.9	References .....	760	
<b>Chapter</b>	<b>41</b>	<b>Foodborne Viruses .....</b>	<b>763</b>
41.1	Introduction .....	763	
41.2	General Considerations .....	766	
41.3	Foods to be Tested .....	767	
41.4	Equipment, Materials. and Reagents .....	768	
41.5	Precautions .....	770	
41.6	Procedures .....	771	
41.7	Interpretation of Test Results .....	781	
41.8	Prospectus .....	782	
41.9	References .....	783	
<b>Chapter</b>	<b>42</b>	<b>Waterborne and Foodborne Parasites .....</b>	<b>789</b>
42.1	Introduction .....	789	
42.2	Waterborne Parasites: Prevalence, Disease, Transmission, and Methods of Identification .....	795	
42.3	Foodborne Parasites: Prevalence, Disease, Transmission, and Methods of Identification .....	798	
42.4	Emerging Methods .....	806	
42.5	References .....	807	
<b>Chapter</b>	<b>43</b>	<b>Toxigenic Fungi and Fungal Toxins .....</b>	<b>811</b>
43.1	Introduction .....	811	
43.2	Mycotoxicoses .....	811	
43.3	Mycotoxins .....	812	
43.4	Microbiology .....	814	
43.5	Equipment, Material, and Reagents .....	816	
43.6	Precautions .....	816	
43.7	Media and Procedures .....	816	
43.8	Reviews and Compendia .....	817	
43.9	References .....	818	

## FOODS AND THEIR SAFETY AND QUALITY

	52.6	Methods .....	969
	52.7	Interpretation of Data .....	970
	52.8	References .....	971
<b>Chapter</b>	<b>53</b>	Salad Dressings .....	<b>975</b>
	53.1	Introduction .....	975
	53.2	General Considerations .....	975
	53.3	Normal Flora .....	976
	53.4	Floral Change in Spoilage .....	976
	53.5	Human Disease Microorganisms .....	977
	53.6	Microbial Indicators of Poor Sanitation .....	978
	53.7	Equipment, Materials, and Solutions .....	978
	53.8	Recommended Methods .....	979
	53.9	Interpretation of Data .....	981
	53.10	References .....	981
<b>Chapter</b>	<b>54</b>	Sweeteners and Starches .....	<b>985</b>
	54.1	Introduction .....	985
	54.2	General Considerations .....	986
	54.3	Normal and Indicator Flora .....	987
	54.4	Spoilage Organisms .....	988
	54.5	Pathogens .....	989
	54.6	Recommended Methods .....	990
	54.9	Interpretation of Data .....	991
	54.10	References .....	991
<b>Chapter</b>	<b>55</b>	Cereal and Cereal Products .....	<b>995</b>
	55.1	Introduction .....	995
	55.2	Factors Affecting Bioload .....	996
	55.3	Methods .....	1002
	55.4	References .....	1004
<b>Chapter</b>	<b>56</b>	Confectionery Products .....	<b>1007</b>
	56.1	Introduction .....	1007
	56.2	General Considerations .....	1008
	56.3	Spoilage of Confectionery .....	1009
	56.4	Pathogens .....	1011
	56.5	Microbial Control Procedures .....	1012
	56.6	Recommended Methods .....	1014
	56.7	Interpretation of Data .....	1015
	56.8	References .....	1016

<b>Chapter</b>	<b>57</b>	<b>Nut Meats .....</b> <b>1019</b>
57.1	Introduction .....	1019
57.2	General Considerations .....	1019
57.3	Microflora .....	1020
57.4	Pathogens .....	1021
57.5	Molds and Mycotoxins .....	1022
57.6	Laboratory Tests .....	1022
57.7	References .....	1023
<b>Chapter</b>	<b>58</b>	<b>Soft Drinks .....</b> <b>1025</b>
58.1	Introduction .....	1025
58.2	Microbiology .....	1025
58.3	Recommended Methods .....	1027
58.4	Interpretation of Data .....	1028
58.5	References .....	1029
<b>Chapter</b>	<b>59</b>	<b>Bottled Water .....</b> <b>1031</b>
59.1	Introduction .....	1031
59.2	Types of Microorganisms .....	1032
59.3	Equipment. Media. and Reagents .....	1033
59.4	Recommended Methods .....	1033
59.5	Interpretation of Data .....	1036
59.6	References .....	1036
<b>Chapter</b>	<b>60</b>	<b>Canned Foods—Tests for Commercial Sterility .....</b> <b>1037</b>
60.1	Introduction .....	1037
60.2	General Considerations .....	1039
60.3	Equipment. Materials. and Reagents .....	1041
60.4	Precautions .....	1042
60.5	Procedure .....	1042
60.6	Interpretation of Data .....	1047
60.7	References .....	1049
<b>Chapter</b>	<b>61</b>	<b>Canned Foods—Tests for Cause of Spoilage .....</b> <b>1051</b>
61.1	Introduction .....	1051
61.2	Microbiology of Canned Foods .....	1052
61.3	Examination Methods for Diagnosing Spoilage Conditions in Canned Foods .....	1058
61.4	Keys to Probable Cause of Spoilage .....	1083
61.5	Normal pH Ranges of Selected Commercially Canned Foods .....	1090
61.6	References .....	1091
