PREFACE	
1 Food Microbiology-A Many-Faceted Science	1
2 Bacteria	18
3 Yeasts	33
4 Molds	59
5 Factors Influencing Growth of Spoilage Microorganisms	77
6 Microbiology of Fresh Fruits and Vegetables	93
7 Microbiology of Red Meats	104
8 Microbiology of Poultry Meat	120
9 Microbiology of Fish and Seafood	128
10 Microbiology of Eggs and Egg Products	142
11 Microbiology of Dehydrated Fruits, Vegetables, and Cereals	150
12 Microbiology of Canned Foods	165
13 Microbiology of Chemically Preserved Foods and Use of Ultraviolet Light in Food Establishments	182
14 Microbiology Fermented Foods	191
15 Microbiology of Milk and Milk Products	204
16 Microbiology of Refrigerated and Frozen Foods	210
17 Food Poisoning and Contamination of Foods with Mycotoxins	217
18 Methods of Study and Review for Food Microbiology Examinations	255
INDEX	321
