

CONTENTS

| | |
|--|-----------|
| 1. Overview Paper | 1 |
| 1.1 Introduction | 1 |
| 1.2 Genomics and Human Health | 2 |
| 1.3 Emerging Technologies | 2 |
| 1.4 Foresight Studies on Genomics and Human Health | 4 |
| 1.5 Conclusion | 6 |
| 1.6 Bibliography | 7 |
| 2. The Conduct of the Study | 9 |
| 3. The Issues Paper | 11 |
| 3.1 Introduction | 11 |
| 3.2 Genomics and Human Health | 12 |
| 3.3 Key Issues in DNA Analysis, Genomics and Human Health | 17 |
| 3.4 Bibliography | 25 |
| 4. The Position Papers | 27 |
| 4.1 Microarrays and Nanochips-from Proteome Discovery to DNA Diagnosis (Australia) | 27 |
| 1) Background | 27 |
| 2) Current Technology | 30 |
| 3) Prospects | 38 |
| 4) The Markets | 41 |
| 5) Emerging Opportunities, Potential Applications and the Future | 42 |
| 6) References and Suggested Reading | 43 |
| 4.2 Genome Diversity and Health (Australia) | 46 |
| 1) Introduction | 46 |
| 2) Population-based genetic studies | 49 |
| 3) Enabling Initiatives and Technologies | 51 |
| 4) Conclusions | 53 |
| 4.3 Bioinformatics : Consolidation and Integration in a Canadian Context (Canada) | 55 |
| 1) Introduction | 55 |
| 2) Current State of Field | 57 |
| 3) Challenges and major S&T issues | 60 |
| 4) Emerging Opportunities | 64 |
| 4.4 Gene Therapy (Canada) | 67 |
| 1) Introduction | 67 |
| 2) Applications of Molecular Therapy | 67 |
| 3) Technical Challenges | 70 |
| 4) Infrastructure Needs | 72 |
| 5) Regulations Governing the Development of Gene Therapy Products in the APEC Region | 77 |
| 6) Social Considerations | 82 |
| 7) Recommendations | 84 |
| 8) References | 85 |
| 4.5 Post-Genome Research Toward Drug Development (Japan) | 87 |
| 1) Introduction | 87 |
| - Post genome research toward drug development | 87 |
| - Development of molecular target drugs | 94 |
| 2) Conclusion | 100 |
| 4.6 Eth, Social and Legal Implications: To Be or Not To Be (Thailand) | 101 |
| 1) Rationale and Background | 101 |
| 2) Key Issues and Examples in ELSI among APEC countries | 104 |
| 3) Fundamental Thinking underlying ELSI of Human Genetics | 120 |
| 4) Current Status with regards of ELSI among APEC countries | 123 |

| | |
|--|------------|
| 5) Key Infrastructure Development Needed for Creating More Harmonious Relationship in the Society | 126 |
| 6) Possible Evolution in the Future | 130 |
| 7) Concluding remarks | 131 |
| 8) References | 132 |
| 5. Report on Survey of Genomic Experts in APEC Economies | 135 |
| 1) Preamble | 135 |
| 2) Data Analysis | 137 |
| 3) Conclusion | 146 |
| 4) Suggested Additional Developments | 146 |
| 5) Survey Instrument | 156 |
| 6. Scenario-Based Futures | 159 |
| 7. Policy Initiatives for the Future of Post-Genomics in the APEC Region | 169 |
| 8. Conclusions and Further Thoughts | 173 |
| Appendix 1 List of Contributors | 177 |
| Appendix 2 Key Themes-APEC Life Sciences Innovation Forum | 187 |
