

CONTENTS

| | |
|---|-----|
| Part 1 The Scientific Study of Protists as Living Systems | |
| 1 Natural Science and Protistology | 3 |
| 2 Properties of Living Systems | 7 |
| 3 History of Recognition of Microscopic Organisms as Living Systems | 11 |
| Part 2 Cellular Organization | |
| 4 organization and Chemical Composition of Cells | 23 |
| 5 Prokaryotic Cells | 27 |
| 6 Eucaryotic Cells | 45 |
| 7 Viruses: Infective Cell Products | 67 |
| 8 Phylogeny of Structure | 91 |
| 9 Differentiation | 93 |
| Part 3 Growth | |
| 10 Fundamentals of Orderly material Expansion | 99 |
| 11 Laboratory Cultivation | 111 |
| Part 4 Major Groups of Protists | |
| 12 Taxonomy and Nomenclature | 139 |
| 13 Bacteria | 149 |
| 14 Fungi | 201 |
| 15 Protozoa | 261 |
| 16 Slime Protists | 311 |
| 17 Algae | 319 |
| Part 5 Variation | |
| 18 Protistan Responses to Environmental Stimuli | 391 |
| 19 Genetic Systems | 413 |
| Part 6 Effects of Protists on Their Environments | |
| 20 Metabiotic Activities | 453 |
| 21 Associations | 467 |
| 22 Inhabitation of Man | 485 |
| 23 Protists and Technology | 511 |
| Bibliography | 545 |
| Index to Protists | 549 |
| Index-Glossary | 557 |
