

CONTENTS

Introduction	
1 Stationary Beam Methods	
1.1 Transmission Electron Microscopy	3
1.2 Reflection Electron Microscopy	163
1.3 Electron Energy-Loss Spectroscopy imaging	181
1.4 High Voltage Electron Microscopy	203
1.5 Convergent Beam Electron Diffraction	223
1.6 Low-Energy Electron Microscopy	243
1.7 Lorentz Microscopy	261
1.8 Electron Holography Methods	271
1.9 Spin-Polarized Low-Energy Electron Microscopy	293
2 Scanning Beam methods	
2.1 Scanning Reflection Electron Microscopy	305
2.2 Scanning Transmission Electron Microscopy	329
2.3 Scanning Transmission Electron Microscopy: Z Contrast	361
2.4 Scanning Auger Microscopy (SAM) and Imaging X-Ray Photoelectron Microscopy(XPS)	387
2.5 Scanning Microanalysis	427
2.6 Imaging Secondary Ion Mass Spectrometry	457
2.7 Scanning Electron Microscopy with Polarization Analysis (SEMPA)	483
Index	499
