

CONTENTS

PREFACE	vii
REFLECTIONS ON SCANNING ELECTRON MICROSCOPY	1
T. E. Everhart, University of California Berkeley, California	
SOME APPLICATIONS OF THE SEM AT THE PULP AND PAPER RESEARCH INSTITUTE OF CANADA.	13
A. Rezanowich, Pulp & Paper Research Institute of Canada Point Claire, Quebec, Canada	
APPLICATION OF THE SCANNING ELECTRON MICROSCOPE IN PALEONTOLOGY AND GEOLOGY . . .	29
P. A. Sandberg and W. W. Hay University of Illinois, Urbana, Illinois	
EXAMINATION OF POROUS OXIDE SCALES IN THE SCANNING ELECTRON MICROSCOPE.	39
J. E. Castle, Central Electricity Research Laboratory, Leatherhead, Surrey, England and C. G. Wood, University of Manchester, Manchester, England	
TWENTY YEARS OF SCANNING ELECTRON MICROSCOPY, 1948-1968, IN THE ENGINEERING DEPARTMENT, CAMBRIDGE UNIVERSITY, ENGLAND	55
W. C. Nixon, Engineering Department Cambridge University, Cambridge, England	
ON THE CONTRAST AND RESOLUTION OF THE SCANNING ELECTRON MICROSCOPE.	63
S. Kimoto and H. Hashimoto Japan Electron Optics Laboratory Co., Ltd., Tokyo, Japan	
SCANNING ELECTRON MICROSCOPY IN METALLURGY.	79
O. Johari, IIT Research Institute Chicago, Illinois	
APPLICATIONS OF THE SEM TO CERAMIC STUDIES.	89
E. W. White and R. Roy, Pennsylvania State University University Park, Pennsylvania	
COMPUTER PROCESSING OF SEM IMAGES	95
E. W. White, H. A. McKnistny and G. G. Johnson, Jr. Pennsylvania State University, University Park, Pennsylvania	
CHEMICAL APPLICATIONS OF THE SCANNING ELECTRON MICROSCOPE	105
C. M. Drew, Naval Weapons Center China Lake, California	
FRACTOGRAPHY OF COMPOSITE MATERIALS.	121
J. D. Fairing, Monsanto Company St. Louis, Missouri	
APPLICATION OF THE SCANNING ELECTRON MICROSCOPE TO SEMICONDUCTORS	131
R. K. Matta, Westinghouse Research Laboratories Pittsburgh, Pennsylvania	
BIOLOGICAL APPLICATIONS OF THE SCANNING ELECTRON MICROSCOPE	143
R.F.W. Pease, Bell Telephone Laboratories, Inc. Holmdel, New Jersey and T. L. Hayes, University of California Berkeley, California	
BIBLIOGRAPHY OF SCANNING ELECTRON MICROSCOPE AND SOME RELATED SUBJECTS.	155
Irene Corvin, IIT Research Institute Chicago, Illinois
