

CONTENTS

1. Formulation of the Problem	13
2. Starting Point of the Investigation	13
3. Plant Experiments	15
3.1 Methods	15
3.2 Results of the K-deficiency Experiments	16
3.3 Symptoms of K-excess	44
3.4 Comparison of K-deficiency Symptoms with Mg-deficiency Symptoms in Higher Plants	45
3.5 Comparison of K-deficiency with Ca-deficiency Symptoms in Higher Plants	47
3.6 Comparison of K-deficiency Symptoms with Symptoms of Other Deficiencies in Higher Plants	48
4. Microchemical Experiments	49
4.1 Detection of Potassium in Microscopic Sections	49
4.2 Plasmolysis Experiments	53
5. Discussion	55
5.1 The K-deficiency Symptoms	55
5.2 Conclusions Regarding the Role of Potassium in Plant Metabolism that can be Drawn from the Foregoing Observations	59
Summary	64
List of species investigated	75
Pictures	77
