

**CONTENTS**

Chapter 1 Introduction	1
Chapter 2 General features of form and structure	9
Chapter 3 Cellular organization of blue-green algae	35
Chapter 4 Cell biology	78
Chapter 5 Gas vacuoles	93
Chapter 6 Movements	111
Chapter 7 Culture, nutrition and growth	129
Chapter 8 Photosynthesis and chemosynthesis	143
Chapter 9 Heterotrophy and respiration	161
Chapter 10 Nitrogen metabolism	180
Chapter 11 Differentiation, reproduction and life cycles	214
Chapter 12 Freshwater ecology	255
Chapter 13 Pathogens of blue-green algae	281
Chapter 14 Marine blue-green algae	298
Chapter 15 Terrestrial ecology	311
Chapter 16 The ecology of nitrogen fixation by algae	323
Chapter 17 Symbiosis	343
Chapter 18 Evolution and phylogeny	358
References	375
Index	433
