

CONTENTS

SECTION 1. BIOCHEMICAL MECHANISMS

Chapter 1. Introduction	3
Chapter 2. Absorption, excretion and tissue distribution	11
Chapter 3. Metabolic transformations catalysed by hepatic microsomal enzymes	34
Chapter 4. Other metabolic transformations	56
Chapter 5. Conjugation mechanisms	76
Chapter 6. Factors affecting the metabolism of foreign compounds	99
Chapter 7. Comparative metabolism	117

SECTION II. APPLICATIONS

Chapter 8. Foreign compounds of natural origin	139
Chapter 9. Food additives	160
Chapter 10. Drugs	172
Chapter 11. Pesticides	195
Chapter 12. Industrial chemicals	211
LIST OF REFERENCES	229
AUTHOR INDEX	251
