

CONTENTS

Part I

1. TOWARDS A VALID SAMPLING TECHNIQUE	
A. Chemistry and Anatomy	1
B. The Effects of Stress	39
C. Conclusions	57
2. THE LIFE CYCLE	
A. Beginnings of Life	60
B. Metamorphosis	80
C. Growth	84
D. Maturity and Spawning	97
E. Aging	126
3. DIFFERENCES BETWEEN AND WITHIN SPECIES	
A. General	129
B. Phylogenetic Considerations	135
C. Freshwater and Saltwater Fish	143
D. Intrinsic Activity	147
E. Variations Within a Species	151
4. THE INFLUENCE OF THE ENVIRONMENT	
A. "Seasonal Variation"	169
B. Ecology	172
5. DEPLETION	
A. General	222
B. Inter-relationships of Main Constituents	225
C. Individual Constituents	230
D. Studies on Enzymes	253
E. Haematology	255
F. Excretion	256

Part II

INDEX OF CHEMICAL SUBSTANCES	
Introduction	259
"Proximate Analysis"	260
Enzymes	262
Other Substances	263

Part III

INDEX OF FISH NAMES	
Appendix A: FAMILY RELATIONSHIPS OF FISH GENERA	406

Appendix B: COMMON NAMES OF FISH AND THEIR LATIN EQUIVALENTS	410
BIBLIOGRAPHY AND AUTHOR INDEX	451
SUBJECT INDEX	543
