

1 Simple Statistical Methods	1
2 More Discrimination Statistical Methods	17
3 Why Use Statistical Designs?	37
4 Factorial Design	60
5 Determination of Optimum Conditions	88
6 Fractional Factorial Experiments	96
7 Fractional Replication and Optimization	113
8 General Comments on Factorial Experimentation	131
9 More Advanced Statistical Methods	141
10 Analysis of Variance and Factorial Experimentation	172
11 Determination of Consistency in Technological Research	182
12 Other Experimental Designs	195
13 Non-Normal Distributions	210
14 Quality Control and Evolutionary Operation	220
Conclusion	239
Answers to Exercises	241
Index	301
