

**CONTENTS**

|   |     |
|---|-----|
| 1. Regulations and Codes  | 1   |
| 2. Process Hazards Control                                      | 19  |
| 3. Equipment Hazards Control                                    | 70  |
| 4. Secondary Containment Controls                               | 121 |
| 5. Aboveground Storage Tanks                                    | 137 |
| 6. Underground Storage Tanks                                    | 172 |
| 7. Material Transfer/Loading/Unloading                          | 227 |
| 8. Dust Control   | 267 |
| 9. Wastewater Emissions Control                                 | 285 |
| 10. Facility Spill and Leak Prevention Practices                | 327 |
| 11. Plant Siting and Equipment Layout                           | 344 |
| 12. Detection and Warning Systems                               | 360 |
| 13. Monitoring VOC Emissions                                    | 367 |
| 14. Estimating Emissions of VOCs and VHAPs from Equipment Leaks | 386 |
| 15. Prevention Techniques for Selected Major Toxic Chemicals    | 402 |
| References  | 477 |
| Index   | 481 |
