

**CONTENTS**

1. Introduction	1
2. Industrial Toxicology	21
3. Industrial Hygiene	61
4. Personal Protective Equipment	95
5. Design and Operating Considerations for Process Equipment	143
6. Design Considerations for Piping and Instrumentation	189
7. Storage of Toxic Materials	235
8. Transfer of Highly Toxic Materials	323
9. Containment and Disposal of Effluent Streams from Emergency Pressure Relief Devices	357
10. Mitigation of Spilled Volatile Hazardous Liquids	401
11. Equipment Maintenance	439
12. Mechanical Integrity	471
Index	521
