

CONTENTS

PART I: CHEMISTRY AND STRUCTURE OF SKIN LIPIDS

- | | |
|--|----|
| 1. The Chemistry of Natural and Synthetic Skin Barrier Lipids | 1 |
| 2. Structure of Stratum Corneum Lipid Layers and Interactions with Lipid Liposomes | 37 |
| 3. Computer Modeling of Skin Barrier Lipid Layers by Molecular Dynamics | 75 |

PART II: BIOLOGICAL FUNCTION OF SKIN LIPIDS

- | | |
|--|-----|
| 4. Role of Lipids in Skin Barrier Function | 97 |
| 5. Investigating Human Skin Barrier Lipids with In Vitro Skin Models | 121 |

PART III: ANALYSIS OF SKIN LIPIDS AND THEIR EFFECTS ON SKIN

- | | |
|--|-----|
| 6. Analytical Techniques for Skin Lipids | 149 |
| 7. Biophysical Methods for Stratum Corneum Characterization | 185 |
| 8. Detection of Cosmetic Changes in Skin Surface Lipids by Infrared and Raman Spectroscopy | 227 |

PART IV: LIPIDS IN COSMETIC PRODUCTS

- | | |
|---|-----|
| 9. Lipidic Ingredients in Skin Care Formulations | 255 |
| 10. Benefits of Lipidic Refatters in Surfactant Products | 299 |
| 11. Sensory Assessment of Lipids in Leave-On and Rinse-Off Products | 319 |

- | | |
