

DAY I	
Welcome	3
Introduction	7
PERSPECTIVES ON SWEETENERS	
The Biological and Cultural Role of Sweeteners	11
Discussion	17
Patterns of Use	19
Discussion	29
Medical and Toxicological Issues	36
Discussion	40
Regulatory Issues	45
Discussion	48
SUGAR	
The Questions of Benefits and Risks	59
Discussion	64
Nutrition: Summary of Evidence	76
Health: Summary of Evidence	86
Discussion	90
Commentary and Discussion	93-115
DAY II	
Welcome	119
Introduction	121
SACCHARIN	
The Questions of Benefits and Risks	127
Discussion	132
Toxicology: The Report of the National Academy of Sciences	133
Discussion	140
Commentary and Discussion	143-152
Health: Considerations of the Institute of Medicine Committee on Saccharin	164
Sweeteners and Dental Health	167
Nonnutritive Sweeteners and Obesity	170
Discussion	171
OTHER SWEETENERS	
Cyclamate	177
Discussion	180
Aspartame	182

Another View of Aspartame	189
Discussion	193
Monellin	196
Discussion	196
The Search for New Sweeteners	207
Discussion	209
FUTURE OPTIONS:	
Natural and Artificial Sweeteners	
Commentary and Discussion	215-227
Closing	231
Summaries by the Co-chairmen	233-234
Appendixes	
Appendix A	241
Appendix B	244
References	251
Participants	255
Program Committee	258
General Advisory Committee	259
Forum Staff	260
