

CONTENTS

Chapter 1 Nutrition	1
Chapter 2 Protein structure	42
Chapter 3 Enzymes and biologic catalysis	100
Chapter 4 Acid-base, fluid, and electrolyte control	177
Chapter 5 Energetics and coupled systems	221
Chapter 6 Krebs cycle	271
Chapter 7 Carbohydrate metabolism	321
Chapter 8 Lipid metabolism	393
Chapter 9 Amino acid metabolism	457
Chapter 10 Sterol and steroid metabolism	511
Chapter 11 Nucleic acids and nucleotides	562
Chapter 12 Nucleic acid and protein biosynthesis	606
Chapter 13 Hormonal regulation of metabolism	654
Abbreviations	713
Appendixes	716-726
