
Table of Contents

Preface	vii
Editors	ix
Contributors.....	xi
Chapter 1 Vitamin A: Nutritional Aspects of Retinoids and Carotenoids.....	1
<i>A. Catharine Ross and Earl H. Harrison</i>	
Chapter 2 Vitamin D	41
<i>Anthony W. Norman and Helen L. Henry</i>	
Chapter 3 Vitamin K	111
<i>John W. Suttie</i>	
Chapter 4 Vitamin E.....	153
<i>Maret G. Traber</i>	
Chapter 5 Bioorganic Mechanisms Important to Coenzyme Functions.....	175
<i>Donald B. McCormick</i>	
Chapter 6 Niacin	191
<i>James B. Kirkland</i>	
Chapter 7 Riboflavin (Vitamin B ₂)	233
<i>Richard S. Rivlin</i>	
Chapter 8 Thiamine	253
<i>Chris J. Bates</i>	
Chapter 9 Pantothenic Acid	289
<i>Robert B. Rucker and Kathryn Bauerly</i>	
Chapter 10 Vitamin B ₆	315
<i>Shyamala Dakshinamurti and Krishnamurti Dakshinamurti</i>	

Chapter 11 Biotin	361
<i>Donald M. Mock</i>	
Chapter 12 Folic Acid.	385
<i>Lynn B. Bailey</i>	
Chapter 13 Vitamin B ₁₂	413
<i>Ralph Green and Joshua W. Miller</i>	
Chapter 14 Choline.	459
<i>Timothy A. Garrow</i>	
Chapter 15 Ascorbic Acid.	489
<i>Carol S. Johnston, Francene M. Steinberg, and Robert B. Rucker</i>	
Chapter 16 Vitamin-Dependent Modifications of Chromatin: Epigenetic Events and Genomic Stability.	521
<i>James B. Kirkland, Janos Zemleni, Linda K. Buckles, and Judith K. Christman</i>	
Chapter 17 Accelerator Mass Spectrometry in the Study of Vitamins and Mineral Metabolism in Humans	545
<i>Fabiana Fonseca de Moura, Betty Jane Burri, and Andrew J. Clifford</i>	
Chapter 18 Dietary Reference Intakes for Vitamins.	559
<i>Suzanne P. Murphy and Susan I. Barr</i>	
Index	571
