

## CONTENTS

1. Overview: The Influence of Nutrition on Xenobiotic Metabolism	1
2. Interim Dietary Guidelines to Lower the Risk of Cancer	11
3. The Inhibition and Promotion of Cancers by Folic Acid, Vitamin B12 and Their Antagonists	31
4. The Influence of Fermentable Dietary Fiber on the Disposition and Toxicity of Xenobiotics	37
5. Influence of Dietary Fiber on Xenobiotics	51
6. Effect of Dietary Factors on Drug Disposition in Normal Human Subjects	61
7. Free Radical Involvement in Chronic Diseases and Aging: The Toxicity of Lipid Hydroperoxides and Their Decomposition Products	77
8. Xenobiotic Adduct Formation with DNA or Glutathione Following Oxidation by Lipid Peroxidation or Hydrogen Peroxide-Peroxidase	97
9. Antioxidants and Malonaldehyde in Cancer	111
10. Influence of Types and Levels of Dietary Fat on Colon Cancer	119
11. Modulation of Mammary Tumor Incidence by Dietary Fat and Antioxidants: A Mechanistic Approach	131
12. Modulation of Benzo[a]pyrene Metabolism by Dietary Sulfur Amino Acids	151
13. Dietary Factors Affecting Biological Responses to Esophageal and Colon Chemical Carcinogenesis	163
14. Influence of Diet on Hormone-Dependent Cancers	177
15. Carcinogen-DNA Binding: A Probe for Metabolic Activation In Vivo and In Vitro	187
16. Effect of Nutrition on the Metabolism and Toxicity of Mycotoxins	209
17. Food and Drug Interactions	221
18. Dietary Vitamin E and Cigarette Smoking	229
19. Effect of the Antioxidant Butylated Hydroxyanisole on In Vivo Formation of Benzo[a]pyrene Metabolite-DNA Adducts: Correlation with Inhibition of Benzo[a]pyrene-Induced Neoplasia by Butylated Hydroxyanisole	241
20. Inadequate Vitamin E and Selenium Nutrition: Effect on Enzymes Associated with Hydroperoxide Metabolism	253
21. Selenium and Carcinogenesis	267
22. In Vitro Effects of Soybean Protease Inhibitors	283
23. Dietary Protein and the Carcinogenesis, Metabolism, and Toxicity of 1,2-Dimethylhydrazine	293
24. Nutrition and Experimental Breast Cancer: The Effects of Dietary Fat and Protein	309
25. Promotion of Liver Carcinogenesis: Interactions of Barbiturates and a Choline-Deficient Diet	327
26. Modulation of Chemical Mutagenesis in a Salmonella /Mammalian Tissue Bioassay by Vitamin A and Other Retinoids	337
27. Effects of Hormone and Diet on Hepatic Enzymes	349
Author Index	365
