
Contents

Section I: Frontiers and Technologic Advances

Chapter 1

Body Composition: Quantifying the Musculoskeletal System 3

Ian Janssen

Chapter 2

**Nutrigenomics: Strategic Prevention of
Musculoskeletal Disorders of Aging 27**

Jeffrey S. Bland

Chapter 3

Early Environments: Fetal and Infant Nutrition 43

See Wai Chan and Gilberto Pereira

Section II: Key Nutrients

Chapter 4

Fat 67

Mary G. Enig and Ingrid Kohlstadt

Chapter 5

Carbohydrate 81

John D. Bagnulo

Chapter 6

Protein 95

David L. Minkoff

Chapter 7

Antioxidants 111

Gabriel K. Harris and David J. Baer

Chapter 8

Water: A Driving Force in the Musculoskeletal System 127

Fereydoon Batmanghelidj and

Ingrid Kohlstadt

Chapter 9 Magnesium	137
<i>Aileen P. Burford-Mason</i>	

Chapter 10 Vitamin D: Importance for Musculoskeletal Function and Health	153
<i>Michael F. Holick</i>	

Chapter 11 Chromium: Roles in the Regulation of Lean Body Mass and Body Weight	175
<i>Richard A. Anderson</i>	

Section III: Fat Tissue

Chapter 12 Energy Balance	193
<i>Wayne C. Miller</i>	

Chapter 13 Neuroendocrine Regulation of Appetite	211
<i>Carlo Contoreggi and Ingrid Kohlstadt</i>	

Chapter 14 Estrogen's Role in the Regulation of Appetite and Body Fat	231
<i>Paula J. Geiselman and Steven R. Smith</i>	

Chapter 15 Childhood Obesity	253
<i>Arline D. Salbe, Marlene B. Schwartz, and Ingrid Kohlstadt</i>	

Chapter 16 Bariatric Surgery: More Effective with Nutrition	271
<i>Ingrid Kohlstadt</i>	

Chapter 17 Malnutrition: Applying the Physiology of Food Restriction to Clinical Practice	283
<i>Altoon S. Dweck</i>	

Section IV: Muscle Tissue

Chapter 18
Muscle Atrophy During Aging 305
Kevin R. Short

Chapter 19
Muscle Strain 337
Ingrid Kohlstadt,
Eric Schweitzer, Karen Mutter,
and Lawrence B. Godwin

Chapter 20
Muscle Hypertrophy 355
Stephen E. Alway

Section V: Soft Tissue

Chapter 21
Osteoarthritis 391
Laurie Mischley and David Musnick

Chapter 22
Fibromyalgia 407
Jacob Teitelbaum

Chapter 23
Gout 425
Tony Helman

Chapter 24
Oral Markers of Tissue Health 431
Helyn Luechauer and Kathryn Poleson

Section VI: Bone

Chapter 25
Bone Nutrition 443
Susan E. Brown

Chapter 26
Osteoporosis 473
Joseph J. Lamb

Chapter 27	
Fractures..	491
<i>Craig Nadelson and Kevin Gebke</i>	
Section VII: Physical Stress	
Chapter 28	
Preparing for Orthopedic Surgery	507
<i>Vilma A. Joseph and Ingrid Kohlstadt</i>	
Chapter 29	
Xenobiotics: Managing Toxic Metals, Biocides, Hormone Mimics, Solvents, and Chemical Disruptors	521
<i>Russell Jaffe</i>	
Chapter 30	
Ergogenics: Maintaining Performance During Physical Stress	545
<i>Luke R. Bucci</i>	
Chapter 31	
Terrestrial Extremes: Nutritional Considerations for High Altitude and Cold and Hot Climates	563
<i>Matthew A. Pikosky and Andrew J. Young</i>	
Index	593
