

Table of Contents

Introduction	vii
--------------------	-----

SECTION 1. INTRODUCTION

SECTION 1.1 BASICS OF SKIN PENETRATION

1. Optimizing Skin Delivery

<i>Joel L. Zatz</i>	1
---------------------------	---

2. Avoiding Transdermal Cosmetic Delivery

<i>Johann W. Wiechers</i>	11
---------------------------------	----

3. Pathways for Skin Penetration

<i>Nava Dayan</i>	23
-------------------------	----

4. Delivering on Antiaging Potential

<i>Nancy Jeffries</i>	37
-----------------------------	----

SECTION 1.2 SKIN LIPIDS

5. Building a Better Barrier from the Inside Out

<i>Daniel Yarosh, David Brown</i>	43
---	----

6. Topical Formulations Conforming to the Structure of the Skin

<i>Vladimir Vacata, Birgit Gertchen-Ohligschläger, Miklos Ghyczy</i>	51
--	----

7. Applications of Essential Fatty Acids in Skin Care, Cosmetics and Cosmeceuticals

<i>Janice Brenner</i>	59
-----------------------------	----

8. Oleic Acid-induced Skin Penetration Effects of a Lamellar Delivery System

<i>Nava Dayan, P. Batheja, B. Michniak</i>	69
--	----

SECTION 1.3 SKIN BARRIER MAINTENANCE AND REPAIR

9. Comparing Methods to Measure Skin Integrity In Vitro	
<i>S. Richert, A. Schrader, K Schrader</i>	83
10. Correlating Transepidermal Water Loss and Percutaneous Absorption: An Overview	
<i>Howard I. Maibach, Jackie Levin</i>	91
11. Barrier Creams (Skin Protective Creams)	
<i>H. Zhai, Howard I. Maibach</i>	97
12. Skin Barrier Function: Effects of Moisturizers	
<i>Marie Lodén</i>	105
13. Properties of a Pseudoceramide Multi-Lamellar Emulsion In Vitro and In Vivo	
<i>Byeong Deog Park, Yoon Kim, MyungJin Lee, Jong Kyung Youm, Eung Ho Choi, Seung Hun Lee</i>	117

SECTION 1.4 SKIN DELIVERY: MEASUREMENT TECHNIQUES

14. Role of Skin Absorption in Cosmetic Development	
<i>Robert L. Bronaugh, Jeffrey J. Yourick</i>	135
15. Dermatopharmacokinetics for Assessing Bioequivalence of Topically Applied Products in Human Skin	
<i>Lynn K. Pershing</i>	143
16. Advanced Methods Measure Skin Penetrants at the Parts-Per-Billion Level	
<i>Jurij J. Hostynek, Howard I. Maibach</i>	161
17. AMS Revolutionizes Absorption and Metabolism Studies	
<i>Howard I. Maibach, Bruce A. Buchholz</i>	167
18. Testing for Penetration of the Skin Barrier	
<i>Theresa M. Callaghan</i>	173

SECTION 1.5 FUTURE DEVELOPMENTS IN SKIN DELIVERY

19. Emerging Technologies and the Future of Cosmetic Science	
<i>Randy Schueller, Perry Romanowski</i>	183
20. Using Tissue Engineered Skin to Evaluate the Irritation Potential of Skin Care Products	
<i>Bart De Wever, Véranne Charbonnier</i>	189

21. A Technical Perspective on Skin Delivery Systems for Cosmetic and Pharmaceutical Applications: Looking Towards the Future	
<i>Barrie C. Finnin, Jonatan Hadgraft, Michael S. Roberts,</i>	
<i>Johann W. Wiechers</i>	203

SECTION 2. DELIVERY SYSTEMS

SECTION 2.1 EMULSIONS AS SKIN DELIVERY SYSTEMS

22. Formulating Cosmetic Emulsions: A Beginner's Guide	
<i>Ken Klein</i>	211
23. Relative Performance Testing of Formulations: Emollients	
<i>Johann W. Wiechers, F.J. Groenhof, A. Barlow</i>	217
24. Relative Performance Testing of Formulations: Emulsifiers	
<i>Johann W. Wiechers, Marie-Claire Taelman, J. Chris Dederen,</i>	
<i>Tony Barlow</i>	235
25. Formulating for Efficacy	
<i>Johann W. Wiechers, Caroline L. Kelly, Trevor G. Blease,</i>	
<i>J. Chris Dederen</i>	249
26. Liquid Crystals and Emulsions: A Wonderful Marriage	
<i>Ken Klein</i>	265
27. New Membrane Emulsification Technologies for Production of Micro- and Nanoemulsions	
<i>Simon R. Biggs, Richard A. Williams, Qingchun Yuan,</i>	
<i>Lyn S. Daintree</i>	273
28. Rationalizing and Producing Nanoemulsions for Personal Care	
<i>Shrinivas C. Kotheekar, Jyotsna T. Waghmare, Shamim A. Momin</i>	281

SECTION 2.2 VESICLES AS SKIN DELIVERY SYSTEMS

29. Skin Delivery from Lipid Vesicles	
<i>L. Tao</i>	291
30. Delivery Review - Looking at Liposomes	
<i>Johann W. Wiechers</i>	307
31. Penetration and Metabolism of Isoflavones in Human Skin	
<i>Daniel Schmid, Fred Züllli, Hans-Peter Nissen, Hanspeter Prieur</i>	319

32. Spontaneous Formation of Liposomes from Lamellar Liquid Crystals	
<i>K.H. Diec, J. Schreiber</i>	327
33. New Liposome Gels by Self Organization of Vesicles and Intelligent Polymers	
<i>K.H. Diec, T. Sokolowski, K.P. Witern, J. Schreiber</i>	335
34. Silicone-Based Vesicle Delivery Systems	
<i>Joanna Newton, Catherine Stoller, Stephanie Postiaux, Veronique Verhelst, Shaow Lin, Michael Starch</i>	347
35. Liposome Stability via Multi-Walled Delivery Systems	
<i>Michael Birman, Nadya Lawrence</i>	359
36. Charged Vesicles for Delivering Actives in Surfactant-based Formulations	
<i>Daniel H. Traynor, Martin S. Flacks</i>	371
 SECTION 2.3 ENCAPSULATION AS A MEANS TO ENHANCE SKIN DELIVERY	
37. Encapsulation Technologies: Tailored Solutions for Delivery	
<i>Todd Ostergaard, Scott Hawkins</i>	379
38. A Triply Stabilized System to Improve Retinol Stability	
<i>Hong Geun Ji, Jung Sik Choi</i>	391
39. Modified Mica as a Vehicle for Unstable or Irritating Ingredients	
<i>E. Desmarthon, M. Seu-Salerno, B. Gonzalez, J.F. Tranchant</i>	403
40. Nanotechnology Enhances Bio-Adhesion and Release After Rinse-Off	
<i>Adi Shefer, Charlene Ng, Sam Shefer</i>	419
41. Comparison Among Assorted Drying Processes for Encapsulation of Flavors	
<i>Roberto Buffo, Gary Reineccius</i>	427
42. Spray Drying: An In-Depth Look at the Steps in Spray Drying and the Different Options Available to Flavorists	
<i>Mike Porzio</i>	447
43. Evaluating Encapsulation Economics	
<i>L. Michael Popplewell</i>	457

SECTION 2.4 ALTERNATIVE SKIN DELIVERY SYSTEMS

- 44. The Wipe: A Carrier of Skin Benefits**
Lee Elen Drechsler, Mathias K. Herrlein, Antonio Martinez-Campoy 469
- 45. Topical Aerosol Foam Formulations**
Marcia Schlesinger 483
- 46. Foam: The Future of Effective Cosmeceuticals**
Dov Tamarkin, Meir Eini, Doron Friedman 491
- 47. Using Iontophoresis to Enhance Cosmetics Delivery**
Dov Tamarkin 501
- 48. A Systematic Approach to Cosmetic Patch Development**
Seong Hoon Jeong, Wan Goo Cho, Jong Kun Choi, Je Phil Ryoo 513
- 49. Inviting Aromas: Delivery Systems in the Growing Home Air Care Market**
Jeff Falk 529
- 50. Fabric Care: Distribution of Aroma Chemicals on Textile Fibers**
Haiqing Liu, S. Kay Obendorf, Michael Leonard, Timothy Young, Michael Incorvia 533
- 51. Textile Materials with Fixed Cyclodextrins as a Fragrance**
Hans-Jürgen Buschmann, Dierk Knüttel, Eckhard Schollmeyer 545
- 52. Skin Delivery of Active Ingredients from Fabrics**
Giulio Pirota 551

SECTION 3. SPECIAL CHEMISTRY IN DELIVERY SYSTEMS

SECTION 3.1 EMULSIONS AS SKIN DELIVERY SYSTEMS

- 53. Cyclodextrins in Skin Delivery**
Thorsteinn Loftsson 567
- 54. Cosmetic Textiles—A New Functionality of Clothes**
Hans-Jürgen Buschmann, Eckhard Schollmeyer 579

SECTION 3.2 SILICONES

- 55. Silicone Technologies as Delivery Systems via Physical Associations**
Joanna Newton, Catherine Stoller, Michael Starch 587

56. Controlled Release of Active Ingredients from Cross-Linked Silicones
Victor A. Raul, Gerald K. Schalaus, Michael Starch 599

57. Silicones Bring Multifunctional Performance to Sun Care
Isabelle Van Reeth, Stéphanie Postiaux, Heidi Van Dort 607

SECTION 3.3 SOLVENTS, SURFACTANTS AND POLYMERS

58. Improved Delivery and Efficacy with Dimethyl Isosorbide
Pascale Rossi, Johann W. Wiechers, Caroline Kelly..... 625

59. A Hydrophobically Modified Inulin Surfactant for Preparing and Stabilizing Nanoemulsions
T. Tadros, E. Vandekerckhove, A. Vandamme, B. Leveck, K. Booten 637

60. Dendrimers That Deliver
Larry Plonsker 647

61. In Closing: Using Polymers as a Delivery System
James Roszell..... 649
