

# Table of Contents

INTRODUCTION .....	1
--------------------	---

## CHAPTER 1 – PHYSIOLOGY

1. Wrinkles from UVA Exposure, <i>Motoyoshi et al.</i> .....	3
2. Participation of Metalloproteinases in Photoaging, <i>Rieger</i> .....	17
3. Pigmentation, Swelling and Wrinkling in the Eye Area, <i>Draelos</i> .....	25
4. Cell Adhesion: A New Approach to Tissue Protection, <i>Moreau et al.</i> .....	35
5. Measured Dermal Effect of Applying Retin-A, <i>Andrassy and Maibach</i> .....	45

## CHAPTER 2 – INTERVENTION AND INGREDIENTS

### Botanicals

1. Oat Fractions, <i>Hart et al.</i> .....	49
2. New Active Ingredient for Aging Prevention, <i>Jay et al.</i> .....	61
3. Galactomannan and Xyloglucan: Bio-Active Polysaccharides, <i>Pauly et al.</i> .....	73
4. Take Tea and See, <i>Brewster</i> .....	93
5. Sweet WhiteLupine Extract as a Skin Restructuring Agent, <i>Closs and Pautique</i> .....	95
6. <i>Centella asiatica</i> and Skin Care, <i>Loiseau and Mercier</i> .....	103
7. Tinged Autumnal Leaves of Maple and Cherry Trees as Potent Antioxidant Sources, <i>Lee et al.</i> .....	111
8. $\beta$ -(1,6)-Branched $\beta$ -(1,3)-Glucan in Skin Care, <i>Kim et al.</i> .....	123
9. Artemia Extract: Toward More Extensive Sun Protection, <i>Domloge et al.</i> .....	133
10. Topically Applied Soy Isoflavones Increase Skin Thickness, <i>Schmid and Züllli</i> .....	147

11. Whitening Complex with <i>Waltheria indica</i> Extract and Ferulic Acid, <i>Maeyama</i> .....	155
12. A Botanical Anti-Sagging/Firming Blend, <i>Gillis et al.</i> .....	161
13. Anti-Wrinkle Activity of Hydrolyzed Ginseng Saponins, <i>Yeom et al.</i> .....	167
14. Phytoestrogens: Applications of Soy Isoflavones in Skin Care, <i>Kawai</i> .....	173
15. Multifunctional Ingredients: The Novel Face of Natural, <i>Prakash et al.</i> .....	181
16. Innovative Natural Active Ingredient with Anti-Inflammatory Properties, <i>Segond et al.</i> .....	189
17. Low Molecular Weight Tannins of <i>Phyllanthus emblica</i> : Antiaging Effects, <i>Chaudhuri et al.</i> .....	197
18. A New Active from Germinated Seeds Boosts HSP Expression in Skin's Natural Defenses, <i>Jeanmarie et al.</i> .....	213

## Hyaluronans

1. Hyaluronan: History and Biochemistry, <i>Neudecker et al.</i> .....	221
2. Hyaluronan: Biology, Pathology and Pharmacology, <i>Neudecker et al.</i> .....	
3. Hyaluronan: Metabolism and Modulation of Hyaluronan Levels in Skin, <i>Neudecker et al.</i> .....	

## Lighteners and Whiteners

1. Skin-Whitening Agents, *Zhai and Maibach*

## Metalloproteinase Inhibitors

1. The Inhibition of Metalloproteinase by *Macrocystis pyrifera* Extract, *Ansaldi and Bosmann* .....
2. Controlling MMPs During Skin Whitening, *Thibodeau* .....

## Vitamins

1. Ascorbic Acid and Its Derivatives in Cosmetic Formulations, *Campos and Silva* ..... :.271

2. The Synergistic Antioxidative Effect of Ascorbyl 2-Phosphate and $\alpha$ -Tocopheryl Acetate, <i>Jentsch et al.</i> .....	277
3. Skin Antioxidants, <i>Zhia and Maibach</i> .....	287

### Water (seaweed, etc.)

1. Efficacy Testing of a Brown Seaweed Extract, <i>Bennett and Vallee</i> .....	293
2. Active Substances From The Sea, <i>Briand</i> .....	301
3. Phytoplankton: The New Frontier for Stress-Relieving Cosmetic Ingredients, <i>Andre et al.</i> .....	313

### Permeability

1. Penetration of Vitamin A Palmitate into the Skin, <i>Campos and Eccleston.</i> .....	
2. Defending Against Photoaging: A New Perspective for Retinol, <i>Jentsch et al.</i> .....	331
3. Moisturizing Potential of d- $\alpha$ -tocopherol, <i>Tamburic et al.</i> .....	
4. Polyethoxylated Retinamide as an Anti-Wrinkle Agent, <i>Song et al.</i>	

### Other

1. A Collagen III Amplifier System, <i>Chaudhuri et al.</i> .....	359
2. Effects of Gelatin-Glycine on Oxidative Stress, <i>Morganti and Fabrizi.</i> .	373
3. Potassium Azeloyl Diglycinate: A Multifunctional Skin Lightener, <i>Maramaldi and Esposito</i> .....	
4. Dietary/Nutritional Supplements: The New Ally to Topical Cosmetic Formulations <sup>2</sup> , <i>Thibodeau and Lauzier</i> .....	391
5. New Laminin Peptide for Innovative Skin Care Cosmetics, <i>Bauza et al.</i> .....	401
6. Copperceuticals and the Skin, <i>Pickart</i> .....	411
7. Targeting the Cutaneous Nervous Network, <i>Nicolay and Imbert</i> .....	417
8. Reflecting on Soft Focus, <i>Brewster</i> .....	427
9. Building a Better Barrier for the Inside Out, <i>Yarosh and Brown</i> .....	433

10. Applications of Essential Fatty Acid in Skin Care, Cosmetics and Cosmeceuticals, <i>Brenner</i> .....	441
--	-----

### **CHAPTER 3 – CLAIM SUBSTANTIATION & TESTING**

1. Scratching the Skin Surface, <i>Nole et al.</i> .....	449
2. Photoaging and Photodocumentation, <i>Pagnoni</i> .....	455

### **CHAPTER 4 – FORMULATION CONSIDERATIONS**

1. Influence of a Formulation's pH on Cutaneous Absorption of Ascorbic Acid, <i>Silva and Campos</i> .....	467
2. O/w Emulsions Enriched with Vitamin E, <i>Djordjevic et al.</i> .....	471
3. A Triply Stabilized System to Improve Retinol Stability, <i>Ji and Choi</i> .....	481
4. Delivering Antiaging Actives, <i>Brewster</i> .....	491
