

Contents

Preface	vii
Acknowledgments	ix
Introduction	1
1 Why Do We Have a Sense of Smell?	4
2 The Mechanism of Olfaction	32
3 Analysis and Characterisation of Odour	188
4 The Sense of Smell in Our Lives	209
5 The Scents of Nature	237
6 Manufacture of Fragrance Ingredients	296
7 The Design of New Fragrance Ingredients	357
8 The Relationship Between Molecular Structure and Odour	388
9 Intellectual Challenges in Fragrance Chemistry and the Future	420
Glossary	428
Index	437
