

## CONTENTS

1. Introduction	5
2. General considerations	6
2.1 Modification of the agenda	6
2.2 Definitions	6
2.3 principles adopted	6
2.4 Variability of the composition of certain pesticides	7
2.5 Use of fumigants and fumigant mixtures	7
2.6 Disappearance of pesticide residues	8
2.7 Pesticide residues in animal foodstuffs	8
2.8 Environmental contamination	9
2.9 Matters relating to the establishment of ADI's	9
2.10 Methods of analysis	10
2.11 Submission of scientific information to FAO and WHO	11
2.12 Reference publication	12
3. Relationship of actual intakes of pesticides to their acceptable daily intakes and to tolerances	12
4. Evaluation of tolerances	15
5. Evaluation of data for tolerances and practical residue limits	16
6. Future work	18
7. Recommendations to FAO and WHO	19
8. Recommendations to member governments	19
References	20
Annex 1. Index to Documentation on specific compounds	22
Annex 2. Summary of recommended acceptable daily intakes, tolerances, temporary tolerances And practical residue limits as of December	1968
Annex 3. Further work or information required (or desirable)	30
