

Contents

Section I. Introduction

CHAPTER	PAGE.
1. Welcome, <i>J. E. Arrarás</i>	1
2. Background for Conference, <i>M. R. G. Palmieri</i>	3
3. Introduction to Conference, <i>H. D. Graham</i>	5
4. Role of the Funding Agency, <i>A. Stevens</i>	6

Section II. Food Regulations in the Americas

5. The Importance of Safety of Foods in the Americas, <i>W. Darby</i> . .	8
6. Food Codes in South America, <i>C. Grau</i>	14
7. Food Legislation in Central America, <i>J. Averza</i>	18
8. Control and Regulation of Foods in Central America, <i>J. J. Bayer S.</i>	22
9. Food Control under the Canadian Food and Drugs Act, <i>R. A. Chapman</i>	37
10. The Food Additives Amendment and the Safety of U.S. Food, <i>H. Fischbach</i>	44
11. Food Regulations in the Americas, <i>B. F. Daubert</i>	50
12. International Coordination of Food Regulations with Particular Reference to the Western Hemisphere, <i>F. Depew</i>	56

Section III. Food Toxicants

13. Plant Toxins, <i>W. Jaffe'</i>	60
14. Poisonous Marine Animals, <i>F. E. Russell</i>	68
15. Radiological Problems in the National Food Irradiation Program, <i>L. A. Whitehair and D. E. Hilmas</i>	82
16. Meat Animal Parasites and the Importance of an Effective and Standardized Meat Inspection System, <i>P. M. Morgan</i> . . .	102
17. Discussion: Food Toxicants, <i>C. F. Asenjo</i>	109

Section IV. Microbial Toxins

18. The Incidence of Clostridia, <i>R. E. Halbinger</i>	111
---	-----

19.	Microbial Problems in Food Safety with Particular Reference to <i>Clostridium botulinum</i> , <i>H. Pivnick</i> and <i>F. S. Thatcher</i>	121
20.	Mycotoxins, <i>B. J. Wilson</i>	141
21.	Staphylococcal Food Poisoning, <i>E. M. Foster</i> and <i>M. S. Bergdoll</i>	159
22.	Bacterial Toxins of Uncertain Oral Pathogenicity, <i>D. A. A. Mossel</i>	168

Section V. Food Spoilage and Food-Borne Infections

23.	Sources of Food Spoilage Microorganisms, <i>Z. J. Ordal</i>	183
24.	Prevention of Food-Borne Infection, <i>R. Angelotti</i>	194
25.	Food-Borne Diseases of Animal Origin, <i>W. W. Sadler</i>	204
26.	Relationship Between Industrial Food Processing and Possible Risk to Consumers, <i>A. Pinto</i>	217
27.	Microbial Problems in Large-Scale Utilization of Foods, <i>A. E. Olszyna-Marzys</i>	223
28.	Discussion: Food Spoilage and Food-Borne Infection Hazards, <i>F. S. Thatcher</i>	240

Section VI. Adequate Food Supply

29.	Safe and Nutritious Food Supply, <i>R. Bressani</i>	245
30.	Population and Food Supply Implications in Latin America, <i>D. B. Hand</i>	262
31.	Discussion: Adequate Food Supply, <i>C. C. Chiriboga</i>	268
32.	Fish Protein Concentrates for Human Consumption—A Review of Processing Methods, <i>V. H. Bertullo</i>	270
33.	The Proper Use of Food Additives, <i>B. L. Oser</i>	278
34.	Industry's Needs for Food Additives, <i>J. Mahoney</i>	285

Section VII. Unintentional Food Additives

35.	Sources of Pesticide Residues, <i>W. P. McKinley</i>	291
36.	Regulating Additives from Food Contact Materials, <i>G. W. Ingle</i>	309
37.	Metabolism of Pesticide Residues, <i>R. A. Chung</i>	319
38.	Incidental Pesticide Residues in Foods, <i>C. H. Van Middleem</i>	324
39.	Antibiotic Residues in Foods, <i>I. H. Siddique</i>	358
40.	Summation—Symposium, <i>F. R. Blood</i> and <i>H. D. Graham</i>	361
